

Internet Radio on the Boston Acoustics i-DS³ plus

Also works for Duo-i plus

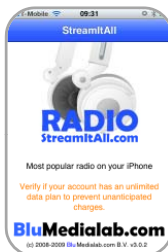

BOSTON ACOUSTICS PRODUCT BULLETIN

How to do it ?

Download a APP suited for internet radio, for example the free SHOUTcast® Radio APP. SHOUTcast® Radio is the leading Internet directory of professionally and community programmed radio stations in the world, with more than 26,000 stations in 30+ genres from around the globe.

More information on: <http://itunes.apple.com/app/shoutcast-radio/id299647180?mt=8>

Although the free RADIO StreamItAll APP by BluMedialab currently only carry 850 radio stations, you can manually add any radio station you like, as long as it is broadcasting via the web. Only thing you need to do is copy the URL from the radio station directly into the APP and you can enjoy the station!

More information on: <http://itunes.apple.com/#!/app/radio-streamital/id286474488?mt=8>

Only thing left to do is to search for your favorite radio station on your iPod Touch or iPhone and enjoy it via the i-DS³ plus !
