

NEW ELARA BY TRIANGLE

REDISCOVER THE MUSIC

WWW.TRIANGLEHIFI.COM

TRIANGLE
MANUFACTURE ELECTROACOUSTIQUE

ENTERTAINMENT AND ENERGY

These are the key words of **ELARA**

Triangle modernizes Hi-Fi speakers by mixing minimalist design and high quality sound. With clear lines, no visible screws and it's stylish high gloss finish, ELARA proves that Hi-Fi can rhyme with modernity.

For this range Triangle has taken a new acoustic approach, which brings speakers with tremendous energy, deep bass and a breathtaking realism in the midrange.

ELARA LN-01

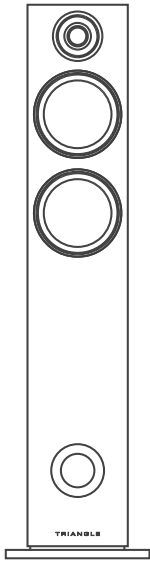

ELARA LN-01

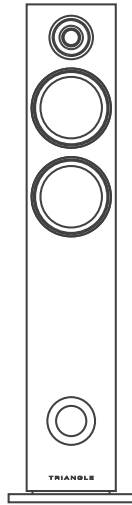

ELARA LN-05

ELARA RANGE

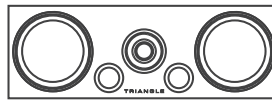

LN-07

ELARAs flagship speaker, the LN07, is equipped with two 6,5 inch drivers and a soft dome tweeter. It is a performance-oriented speaker that will change your perception of music.

LN-05

This compact floorstander can blend into any living room. It only measures 92 cm of height, but this compact speaker delivers amazing power and realism for a speaker of this size

LN-02

An essential part of the home theatre system, LN02 is a center channel speaker composed by two 5-inch woofers and a soft dome tweeter.

LN-01

A Compact bookshelf that will fit everywhere. The new driver technology assures great performance in the low frequencies while maintaining details and precision, which are key values of Triangles philosophy.
