

CLASSIC LINE Mc Edition

Our flagship killer, *Classic line*, gets a makeover with a familiar finish: **Mc Edition**

Given the great success of this exclusive *B by Bassocontinuo* finish, we decided to apply this vibrant combination of black and blue to *Classic Line* as well, bringing to life entirely new products. If *B by Bassocontinuo* finish is synonymous of exclusivity and luxury, with **LYRA XL4 Mc Edition** we wanted to create a rack curated in every detail but an affordable price.

Our luxury entry level, known in the industry for its excellent technical performance at a more available price, is enriched thanks to the skilful hands of the best italian craftsmen. Be amazed by the clean and eye-catching design of Classic line in its new and more luxurious guise: *Mc Edition*.

DETAIL 1
V-METERS

Side details on the shelf that reflect the symbol colour of McEdition's products and make this rack the ideal match with the electronics of the famous American brand known especially for the light-blue V-meters.

DETAIL 2
WASHERS

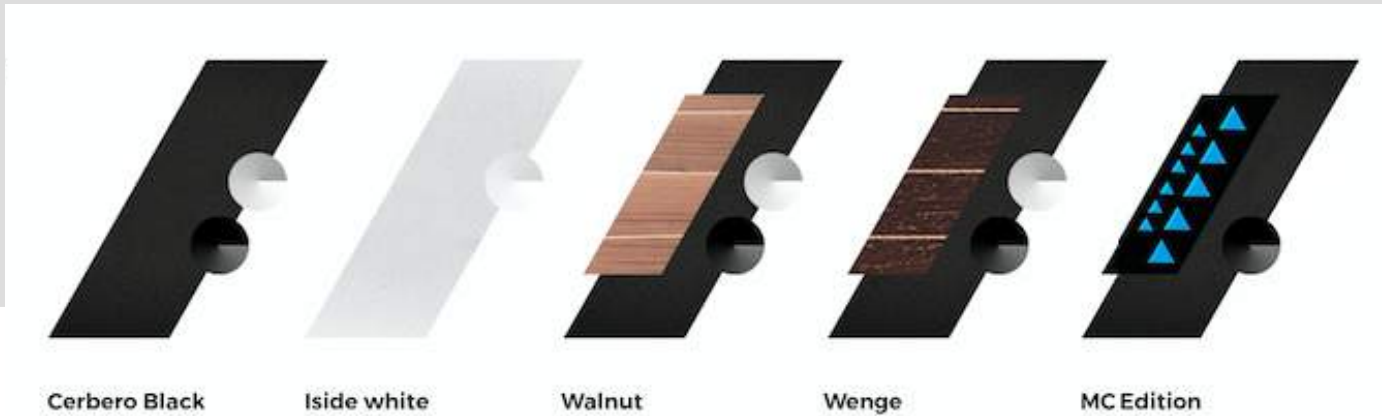

The double set of washers: black and light-blue give to the customer the opportunity to choose during installation which colour prefers.

DETAIL 3
DECOUPLING

Red high density polyurethane washers under each shelf to decouple it from the structure.
