CEO and Founder
Heinz Lichtenegger

**1991
THE START**
with the launch of the first Pro-Ject turntable, named Pro-Ject 1, CEO Heinz Lichtenegger founded the brand.

**1993
PARTNERSHIP**
after the collapse of the iron curtain, Heinz Lichtenegger formed a partnership with a former Tesla factory in Czech Republic that is, until today, producing for Pro-Ject Audio Systems.

**1997
DEBUT**
with the idea of turning a HiFi product into a lifestyle product, the Debut turntable was born and was sold almost 1 Million times until today.

**1994
Pro-Ject 6**
first High End turntable.

**1998
BOX-DESIGN**
Pro-Ject started to produce their own HiFi Electronics.

**2000
NEW FACTORIES**
in order to produce the electronics, new partnerships were formed in Czech Republic and Slovakia.

**2015
ARTIST COLLECTION**
the turntable collection in cooperation with famous musicians started with Austrian artist Parov Stelar. Later: The Beatles, Rolling Stones, Vienna Philharmonics and now Metallica.

**2007
DIGITAL ENTRY**
Pro-Ject introduces first digital products: Pre Box, Amp Box, and DAC Box.

**2021
30th YEAR ANNIVERSARY**
Pro-Ject celebrates this year with the Debut PRO.

**2017
HEADQUARTERS**
opening of the new headquarters in Lower Austria, including an office, a logistics center, administration, Research & Development and a reference Pro-Ject shop.

**2023
PRO-JECT TODAY**
has more than 5.000 dealers in 80 countries, is world leader for HiFi turntables and Micro High End components, has won over 100 international Awards, among several EISA Awards and the Red Dot Design Award and has over 500 employees in four factories.

A photograph of a man in a white polo shirt and shorts, holding a tennis racket, standing on a grassy tennis court. In the background is a large, dark, corrugated metal building with the 'Pro-Ject' logo on its side. The sky is overcast.

Pro-Ject

Music lives here!

Grand slam! On and off the court.
Our headquarters is located 35
kilometers North of Vienna in the
beautiful Weinviertel region...

CEO
Heinz Lichtenegger

Analog recording at our headquarters.

Live music and HiFi Stereo

Live musical events at our headquarters are always an impressive experience for those able to attend. We support local musicians and encourage people to listen to music live. There is no better reference than live music to evaluate a high-quality HiFi playback system.

Classical concert, summer 2020.

Lorri Williams performing at a concert at our headquarters, summer 2022.

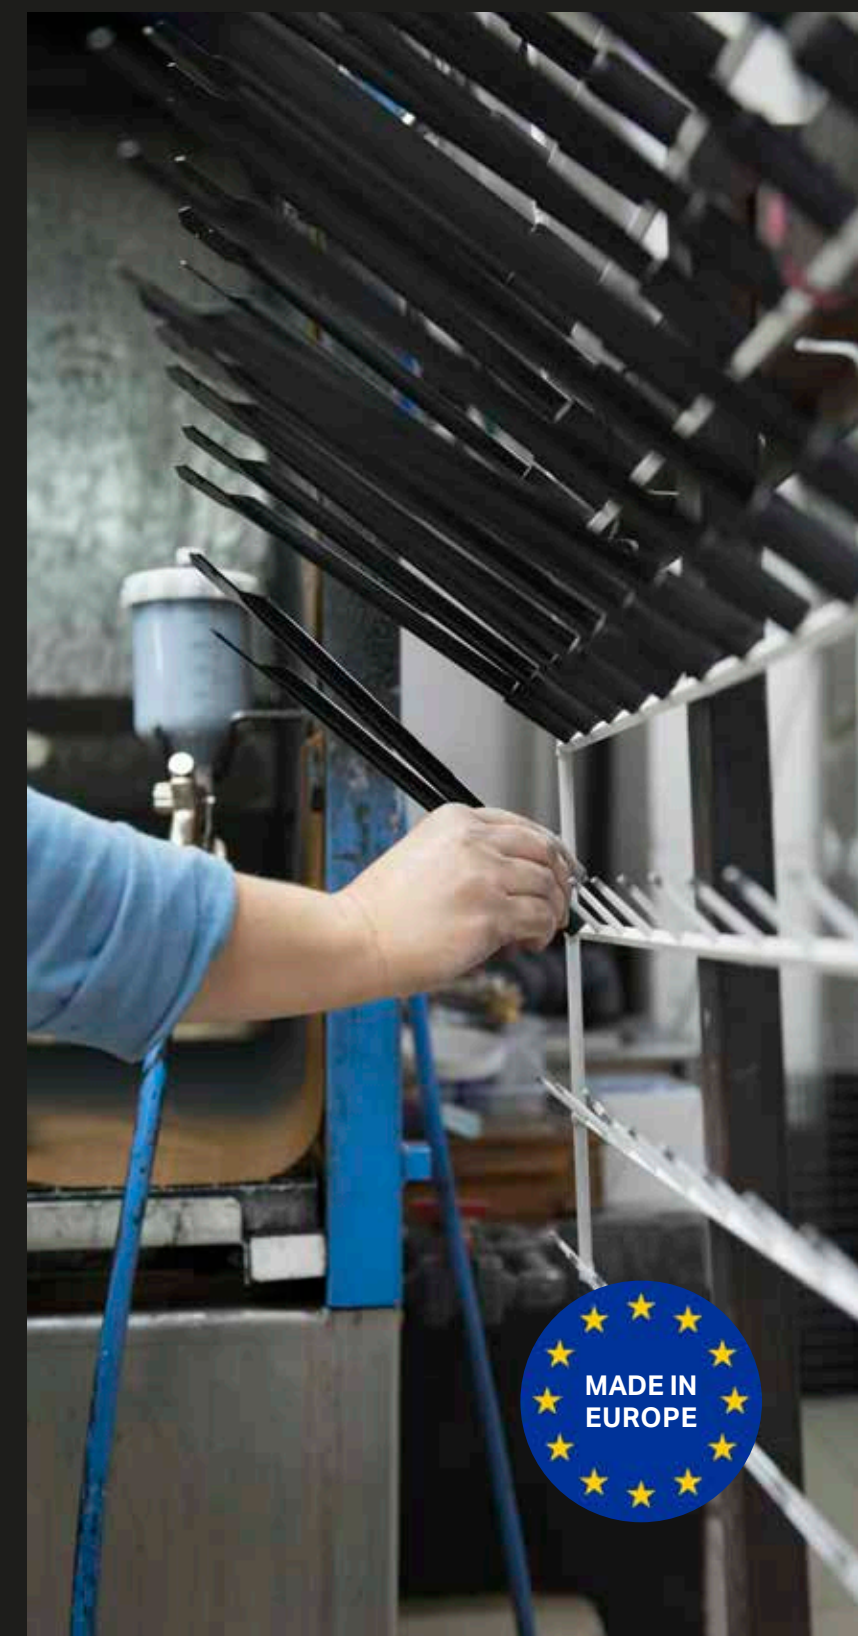

"Our aim is to get as many people as possible into the wonderful world of HiFi audio!"

With the gaining popularity and interest, more and more international distributors began to make Pro-Ject turntables available in their countries. Today we ship into more than 80 countries world-wide and are happy to share some of our passion with every customer.

With cutting edge technologies and machines, we are able to create visually pleasing products without losing the eye for the finest details. In the Czech Republic, we produce all our turntables from scratch, by hand and in house.

stereosoul Chronicles

Insightful interviews with people
passionate about music and culture
– with a pinch of HiFi.

“The process of putting on a record
is beautiful and sensual.”

Actor and comedian
Christian Dolezal owns our
6 Perspex SB turntable placed on
a Wallmount it 1.

Martin Kubik, first violinist at the Vienna
Philharmonic Orchestra uses a CD Box RS2.

Lukas and Manuel Mraz about their passion
for food and music and why they play records
in their Michelin-awarded restaurant.

Florian „Doc” Kaps about the
importance of analogue products.

Why True Balanced Connection for Phono?

All Pro-Ject turntables with outlets are balanced by nature. The industry standard is usually an unbalanced RCA connection as this connection type is cheaper and already widely adopted compared to a really balanced one.

True Balanced Connections can access details embedded in the valuable grooves of your records that you've never heard before.

Liberate your HiFi stereo system from unwanted noise and interference. Get closer to the music you love and take your musical experience to the next level.

Phono Signal
~ 1 mV

CD/Line Signal
~ 1000 mV

1000x smaller voltage

- Interference-free signal
- Increased dynamics
- Lower noise level

True Balanced Ready

To use the **True Balanced Connection**, your turntable needs to be equipped with a Moving Coil (MC) cartridge.

True Balanced Ready turntables are capable of being wired for balanced signals, but are supplied as standard with a Moving Magnet (MM) cartridge.

Present day problems

Nowadays, many electromagnetic fields interfere with turntables. The causes are wireless networks and numerous electronic devices in the modern home. The RCA cable between your turntable and your amplifier is prone to picking up noise on the way. This so-called "electrosmog" can interfere with the tiny phono signal and add noise to your music.

The Solution

Balanced audio connections are standard among professional musicians, recording studios, and live concerts. It is essential to have a stable & interference-free connection as these signals, especially microphone signals, will be highly amplified. The same applies to the connection from your turntable to the phono pre-amplifier. The significant advantage of a balanced connection is its ability to remove picked up noise and interferences.

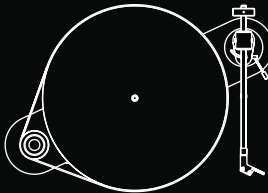

What do I need for a balanced connection?

To XLR or Mini XLR
Balanced input

TURNTABLES

Minimalism meets outstanding
sound quality

With the Elemental Line we are aiming for
turntables with the lowest possible material
expenses without making compromises in
sound quality.

Elemental

Cartridge Ortofon OM 5E Elliptical stylus	Tonearm 8,6", aluminium Saphire bearing	Drive Principle Belt drive on platter	Speed 33/45 RPM Manual change
Chassis and Platter Veneered particle board Central mass point made from concrete	Output Phono out Pre mounted RCA cable	Included Items Felt mat, power supply, RCA cable	Size and Weight 415 x 90 x 300 mm (WxHxD) 2.7 kg (net)
Colour Options    Matt white, grey, red: 279 €			

VT-E

VT-E

Vertical turntable with easiest possible vertical set-up including wall-mount option!

Cartridge Ortofon OM 5E Elliptical stylus	Tonearm 8,6", one-piece alu, saphire bearings	Drive Principle Belt drive on platter	Speed 33/45 RPM Electronic change
Chassis and Platter Veneered particle board	Output Phono out	Included Items Record clamp, felt mat, power supply, Connect it E	Size and Weight 430 x 345 x 245 mm (WxHxD) 2.8 kg (net)

Colour Options    Matt white, black, red: 399 €

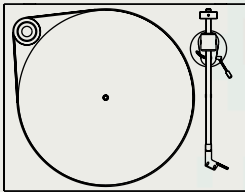

VT-E BT

Vertical BT turntable with easiest possible vertical set-up including wall-mount option!

Cartridge Ortofon OM 5 Elliptical stylus	Tonearm 8,6", one-piece alu, saphire bearings	Drive Principle Belt drive on platter	Speed 33/45 RPM Manual change
Chassis and Platter Made from MDF/plywood	Output Line or Phono Bluetooth	Included Items Record clamp, felt mat, power supply, Connect it E	Size and Weight 415 x 345 x 245 mm (WxHxD) 2.8 kg (net)

Colour Options    High-Gloss white, black, red: 549 €

Perfect turntable for vinyl-beginners

The Primary Line offers excellent craftsmanship, high class components and wonderful sound. It is our traditional entry-level range and gives a qualitative high price-performance-ratio.

Primary E

Audiophile plug&play turntable.

Cartridge Ortofon OM Spherical stylus	Tonearm 8,6", aluminium Saphire bearing	Drive Principle Belt-drive with synchronous motor	Speed 33/45 RPM Manual change
Chassis and Platter Made of plywood	Output Phono out Pre-mounted RCA cable	Included Items Dust cover, felt mat, power supply	Size and Weight 420 x 112 x 330 mm (WxHxD) 4.0 kg (net)

Colour Options    Matt white, black, red: 279 €

Primary E Phono

Audiophile plug&play turntables with built in phono stage.

Cartridge Ortofon OM Spherical stylus	Tonearm 8,6", aluminium Saphire bearing	Drive Principle Belt-drive with synchronous motor	Speed 33/45 RPM Manual change
Chassis and Platter Made of plywood	Output Switchable Line/Phono Gold-plated contacts	Included Items Dust cover, felt mat, power supply, Connect it E	Size and Weight 420 x 112 x 330 mm (WxHxD) 4.0 kg (net)

Colour Options    Matt white, black, red: 329 €

Plug & Play Entry Level Turntable

Cartridge Ortofon OM 5E Elliptical stylus (MM)	Tonearm 8,6", one-piece aluminium, fast traction	Drive Principle Belt drive on sub-plat- ter aluminium pulley	Speed 33/45 RPM electronic change
Chassis and Platter Plywood chassis, Anti-resonant ABS polymer main platter	Output Depends on model	Included Items Dust cover, felt mat, power supply, Connect it E	Size and Weight 420 x 112 x 330 mm (WxHxD) 3,5 kg (net)

Colour Options    White, Black, Walnut - starting at € 299,-

JUKE BOX LINE

Audiophile “All-in-one Plug & Play” turntable system

The Juke Box Line is the optimum solution with analogue and digital inputs, a power amplifier and true stereo sound built into the chassis of a great sounding turntable.

Prices (Suggested Retail Prices) are only for orientation and can differ depending on local taxes. Prices, technical data and realease date without engagement.

Juke Box E1

A turntable, phono stage, Bluetooth receiver, line pre-amplifier and power amplifier in one!

Cartridge Ortofon OM 5E Elliptical stylus	Tonearm 8,6", aluminium Saphire bearing	Drive Principle Belt drive on platter Aluminium pulley	Speed 33/45 RPM Manual change
Chassis MDF and particle board High contrast display Potentiometer on front for controlling the unit	Outputs Speakers, Line out (fixed), Phono out	Included Items Dust Cover, Felt mat, Power supply, IR Remote, Connect it E (RCA cable),	Size and Weight 415 x 118 x 334 mm (WxHxD) 5 kg (net)
Inputs Bluetooth, 1x Line			

Colour Options    High-Gloss white, black, red: 649 €

Juke Box E1 - Stereo Set

A complete set including a turntable, speakers, and cables.

Juke Box E A turntable, phono stage, Bluetooth receiver, line pre-amplifier and power amplifier in one!	Speaker Box 5 Audiophile 2-way monitor speakers using bass reflex system. More infos on page 104.	Damp it Damping feet that effectively prevent transmission of unwanted vibrations.	Cable Set Speaker cable: Low distortion level, neutral sound
---	--	--	---

Colour Options    Glossy white, black, red: 999 €

Juke Box S2

A premium turntable, phono stage, Bluetooth receiver, line pre-amplifier and power amplifier in one!

Cartridge Ortofon Pick it 25A Elliptical stylus	Tonearm 8,6", aluminium Saphire bearing	Drive Principle Belt drive on platter Aluminium pulley	Speed 33/45 RPM Manual change
Chassis and Platter MDF and Acryl High contrast display Potentiometer on front for controlling the unit	Outputs Speakers, Line out (fixed), Phono out	Included Items Dust Cover, Felt mat, Power supply, IR Remote, Connect it E (RCA cable),	Size and Weight 415 x 118 x 334 mm (WxHxD) 5 kg (net)
Inputs Bluetooth, 1x Line			

Colour Options   Eucalyptus or Walnut: 899 €

Juke Box S2 - Stereo Set

A complete set including a turntable, speakers, and cables.

Juke Box S2 A turntable, phono stage, Bluetooth receiver, line pre-amplifier and power amplifier in one!	Speaker Box 5 S2 Audiophile 2-way monitor speakers using bass reflex system. Debut PRO S

Our turntables demand conscious music listening. Debut PRO S takes this philosophy to the extreme. We finished all parts except for the polished spindle in matte black. The manual controls invite the listener to interact with the turntable: turn it on, place the record on the platter, move and lower the tonearm. The musical reward follows the tactile experience. No unnecessary switches, LEDs, or labeling distract from what is essential.

www.project-audio.com/debut-pro-s

Cartridge Pick it S2 C Black Edition	Tonearm Aluminium. S-Shaped 10 inch. Tonearm with detachable headshell	Drive Principle Belt drive on aluminium sub-platter	Speed 33/45/78 RPM Electronic change
Chassis and Platter Made of resonance in-sensitive MDF, TPE aluminium platter	Output Phono out Gold plated sockets	Included Items Dust cover, felt mat, Record Puck E black, power supply, Connect it E	Size and Weight 462 x 113 x 335 mm (W x H x D) 8 kg (net)

Black Satin Finish ● 899 €

Debut PRO

After the Debut Carbon EVO revolutionized the Debut series in 2020, the Debut PRO raises the bar even higher. We designed not only a new turntable but also a completely new cartridge.

Our 30 years anniversary turntable: www.project-audio.com/debut-pro

Cartridge Pick it PRO Elliptical stylus US: Sumiko Rainier	Tonearm 8.6" carbon tonearm saphire bearings	Drive Principle Belt drive on sub-platter	Speed 33/45/78 RPM Electronic change
Chassis and Platter Made of resonance in-sensitive MDF, TPE aluminium platter	Output Phono out Gold plated sockets	Included Items Dust cover, felt mat, power supply, Connect it E	Size and Weight 415 x 95 x 330 mm (WxHxD) 5,6 kg (net)

Black Satin Finish ● 799 €

Debut PRO WHITE

A limited version of Debut PRO completed in a satin white finish...

Cartridge 2M White Elliptical stylus	Tonearm 8.6" aluminium tonearm	Drive Principle Belt drive on sub-platter	Speed 33/45/78 RPM Electronic change
Chassis and Platter Made of resonance in-sensitive MDF, TPE aluminium platter	Output Phono out Gold plated sockets	Included Items Dust cover, felt mat, power supply, Connect it E	Size and Weight 415 x 95 x 330 mm (WxHxD) 5,6 kg (net)
White Satin Finish  799 €			

Debut Carbon EVO

Time for Evolution. We have taken our most popular turntable design and improved every aspect of it. The result is an incredibly refined product.

Our most popular turntable design: www.project-audio.com/debut-carbon-evo

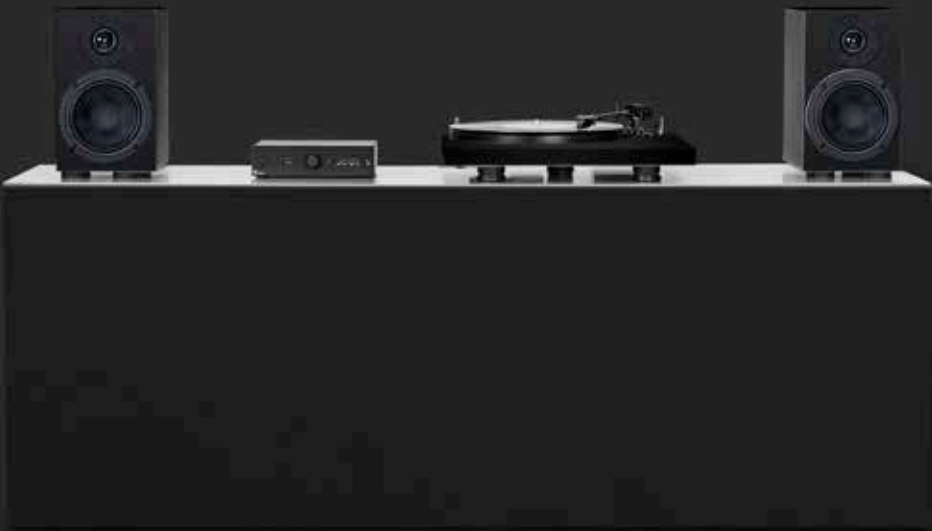

Cartridge Ortofon 2M Red Elliptical stylus US: Sumiko Rainier	Tonearm 8.6" carbon tonearm saphire bearings	Drive Principle Belt drive on sub-platter	Speed 33/45/78 RPM Electronic change
Chassis and Platter Made of resonance in-sensitive MDF, TPE damped steel platter	Output Phono out Gold plated sockets	Included Items Dust cover, felt mat, power supply, Connect it E	Size and Weight 415 x 95 x 330 mm (WxHxD) 5,6 kg (net)

Handmade in Germany

The A1 is handmade in Germany by a traditional manufacturer with a wealth of experience in making automatic turntables. Our new A1 is your best companion to comfortably enjoy your favourite records.

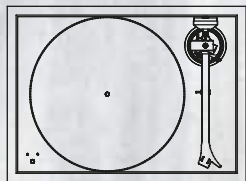

A1

Precise mechanics with automated start and stop: www.project-audio.com/a1

Cartridge Ortofon OM 10	Tonearm The A1 features an 8.3" ultra-light-mass aluminium tonearm. Together with the Ortofon OM10, which fits this design principle perfectly, we get extraordinary fast response and detail in terms of transients and microdynamics.	Output Switchable Phono preamp	Speed Electronic speed selector for 33/45 RPM
Chassis and Platter Precision balanced aluminium platter. The chassis avoids hollow spaces wherever possible, with just enough space to precision fit all the inner workings of the A1.	Drive Principle Belt drive on	Included Items Dust cover, felt mat, power supply, Connect it E (RCA cable)	Size and Weight 430 x 130 x 365 mm (WxHxD) 5,6 kg net

Colour Options   Black: 399 € White: 449 €

Classic look combined with modern technology

The Classic was born in celebration of our 25th anniversary. It sports a timeless and elegant real-wood chassis, a newly developed Carbon/Aluminium tonearm and an aluminium sub-chassis that is dampened by high-tech TPE balls. Classic in looks with a few modern technologies under the hood.

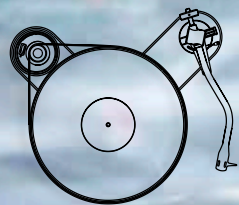

The Classic Evo

Traditional sub-chassis turntable with 9" tonearm: www.project-audio.com/the-classic-evo

Cartridge Ortofon 2M Silver MM Stylus US version comes with SUMIKO cartridge	Tonearm 9" carbon/aluminium, adjustable Azimuth and VTA, MM & MC capa- bility, ultra low friction Zircon pin-point cardan bearings (top & side), base: Japanese ball bearing, integrated central vertical cable outlet for unhindered arm movement	Output Phono Out Drive Principle Belt drive on diamond cut precision alu sub- platter Included Items Dust cover, felt mat, power supply, Connect it E (RCA cable)	Speed Electronic speed selector for 33/45/78 RPM Size and Weight 462 x 131x 351 mm (WxHxD) 10.5 kg (net)
Colour Options   Eucalyptus or Walnut 1.699 € incl. Ortofon 2M Silver			

Less vibration through droplet-form

The RPM Line consists of our droplet-form turntables. This kind of form is known for less vibrations due to its build nature. The RPM Line also uses fully decoupled and separate motors for better sound.

RPM 1 Carbon

Manual turntable with 8,6" S-shape carbon tonearm

Cartridge Ortofon 2M Red Elliptical stylus (MM)	Tonearm 8,6" S-shape made from carbon/alu	Drive Principle Precision belt drive decoupled motor	Speed 33/45 RPM manual change
Chassis and Platter High-gloss painted MDF, inverted platter bearing for reduced rumble	Output Phono Out	Included Items Felt mat, power supply, Connect it E (RCA cable)	Size and Weight 380 x 110 x 350 mm (W x H x D) 3.8 kg (net)

Colour Options    High-Gloss white, black, red: 549 € incl. 2M Red | n/c 499 €

RPM 3 Carbon

Manual turntable with 10" S-shape carbon tonearm

Cartridge Ortofon 2M Silver Elliptical stylus (MM)	Tonearm 10" S-shape made from carbon/alu	Drive Principle Precision belt drive decoupled motor	Speed 33/45 RPM manual change
Chassis and Platter High-gloss painted MDF, inverted platter bearing for reduced rumble	Output Phono Out	Included Items Felt mat, power supply, Connect it E (RCA cable)	Size and Weight 422 x 118 x 373 mm (W x H x D) 5.5 kg (net)

Colour Options    High-Gloss white, black, red: 849 € incl. 2M-Silver | n/c 749 €

RPM 5 Carbon

Manual turntable with 9" Evo tonearm

Cartridge Ortofon 2M Bronze Elliptical stylus (MM)	Platter Acrylic	Drive Principle Precision belt drive decoupled motor	Speed 33/45 RPM manual change
Chassis A low resonance MDF/ carbon chassis holds a inverted platter bearing with ceramic ball.	Tonearm 9" cc EVO Carbon MM & MC capability TPE damped counter-weight	Included Items Felt mat, power supply, Record clamp, Connect it E (RCA cable)	Size and Weight 430 x 150 x 323mm (W x H x D) 8.0 kg (net)
	Output Phono Out		

Colour Options    High-Gloss white, black, red: 1.799 € incl. 2M-Bronze | n/c 1.599 €

Prices (Suggested Retail Prices) are only for orientation and can differ depending on local taxes. Prices, technical data and reelease date without engagement.

RPM 9 Carbon

Highend turntable with 9" Evo tonearm

Cartridge Ortofon Quintet Bronze Nude fine line stylus	Platter 7.2 kg aluminium	Drive Principle Precision belt drive decoupled motor	Speed 33/45 RPM electronic change
Chassis MDF with hard resin coated steel pellets - special complex heat treatment and a carbon surface coating. Holds a inverted platter be- aring with ceramic ball.	Tonearm 9" cc EVO Carbon MM & MC capability TPE damped counter- weight	Included Items Power supply, Connect it 5P-CC (phono cable), Record puck	Size and Weight 440 x 180 x 325 mm (W x H x D) 16.5 kg (net)

Cartridge
optional with
Quintet Blue

Chassis
Acrylic Plinth, Sub-
chassis made from
Corian with magnetic
suspension.

Platter
Acoustically inert
sandwich construction
of platter with combi-
nation of MDF and vinyl
layer as mat,

Tonearm
tonearm 9 cc Evolution,
bearings with ABEC 7
ballraces

Output
RCA/Phono Out

Drive Principle
Belt drive with AC
motor with DC driven
AC generator

Feet
Height adjustable,
black aluminium

Included Items
Dust cover, record
clamp, power supply,
spirit level, Connect it E
(RCA cable)

Speed
33/45 RPM
electronic switch

Size and Weight
460 x 183 x 365 mm
(W x H x D), 9,3 kg (net)

Acrylic Plinth

2.199 € without cartridge, 2.399 € with Quintet Blue

Xtension 9 Evolution

Highend turntable with 9" Evo tonearm			
Cartridge Pick it DS2 MC	Platter Precision balanced sandwich-platter	Drive Principle Precision belt drive decoupled motor	Speed 33/45/78 RPM electronic change
Chassis MDF filled with metal granulate with low levels of resonance and high massaring with ceramic ball.	Tonearm 9" cc EVO Carbon MM & MC capability Damped counterweight	Included Items Heavy weight record clamp, dust cover, power supply, spirit level, gloves, Connect it CC (Modell 5P-CC)	Size and Weight 465 x 185 x 350 mm (W x H x D) 18 kg (net)
Output 5P/Phono Out			
Colour Options			
White, Black, Red, Olive, Mahagoni, Walnut, Palisander, Eucalyptus: 2.999€ n/c incl. Pick it DS2: 3.299€			
High Gloss Walnut Burl, Satin Walnut Burl: 3.999€ n/c incl. Pick it DS2: 4.299€			

Xtension 10 Evolution

Highend turntable with 10" Evo tonearm			
Cartridge Ortofon Cadenza Red Nude fine line stylus on alu cantilever	Platter 10,3 kg aluminium	Drive Principle Precision belt drive decoupled motor	Speed 33/45/78 RPM electronic change
Chassis MDF with hard resin coated steel pellets - special complex heat treatment and a carbon surface coating. Holds a inverted platter bearing with ceramic ball.	Tonearm 10" EVO Carbon MM & MC capability TPE damped counterweight	Included Items Heavy weight record clamp, dust cover, power supply, spirit level, gloves, Connect it CC (Modell 5P-CC)	Size and Weight 480 x 235 x 400 mm (W x H x D) 26 kg (net)
Output 5P/Phono Out			
Colour Options			
White, Black, Red, Olive, Mahagoni, Walnut, Palisander, Eucalyptus: 3.999€ n/c incl. Cadenza Red: 4.999€			
High Gloss Walnut Burl, Satin Walnut Burl: 4.999€ n/c incl. Cadenza Red: 5.999€			

Xtension 12 Evolution

Highend turntable with 10" Evo tonearm			
Cartridge	Platter 14.4 kg aluminium	Drive Principle Precision belt drive decoupled motor	Speed 33/45/78 RPM electronic change
Chassis MDF with hard resin coated steel pellets - special complex heat treatment and a carbon surface coating. Holds a inverted platter bearing with ceramic ball.	Tonearm 10" EVO Carbon MM & MC capability TPE damped counterweight	Included Items Heavy weight record clamp, dust cover, power supply, spirit level, gloves, Connect it CC (Modell 5P-CC)	Size and Weight 550 x 550 x 560 mm (W x H x D) 33 kg (net)
Output 5P/Phono Out			
Colour Options			
Black, Olive, Mahagoni, Walnut: 4.499 € n/c			
High Gloss Walnut Burl, Satin Walnut Burl: 5.499 € n/c			

Our Signature and Xtension turntables are available in exclusive Walnut Burl finishes. They are produced in small numbers and on special request, so the availability is limited.

Our X-Line is handcrafted with attention to detail.

Playback Speed

Electronic speed control
for 33/45/78 RPM

Chassis

MDF with hard resin coated
steel pellets - special complex
heat treatment and a carbon
surface coating.

Signature 10

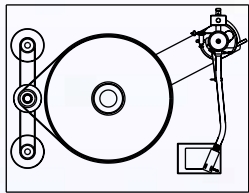

An uncompromising high-end turntable combining mass-loading with magnetically-floating turntable principles.

Highend turntable with single-pivot tonearm.

Cartridge not included (n/c)	Platter 10.1 kg heavy acryl Stainless steel-bearing with soft brass bushing	Output 5P/Phono Out	Included Items Connect it CC (Modell 5P-CC) Record puck, gloves, spirit level...
Chassis Piano-lacquer chassis with magnetic decou- pling or veneered with walnut burl satin or high-gloss.	Tonearm Single-pivot tonearm in high gloss metal surface.	Drive Principle Motor control system for perfect speed stability.	Speed 33/45 RPM electronic switch
		Feet Height adjustable, black aluminium	Size and Weight 475 x 195 x 354 mm (W x H x D) 22,6 kg (net)

Colour Options	   	Piano White, Piano Black, Olive, Mahagoni: 6.999 € n/c
	 	High Gloss Walnut Burl, Satin Walnut Burl: 7.999 € n/c

Signature 12

A flagship in every sense, it is a must-consider product for any serious audiophile with a high budget.

An audiophile marvel, that represents our championship in precision engineering.

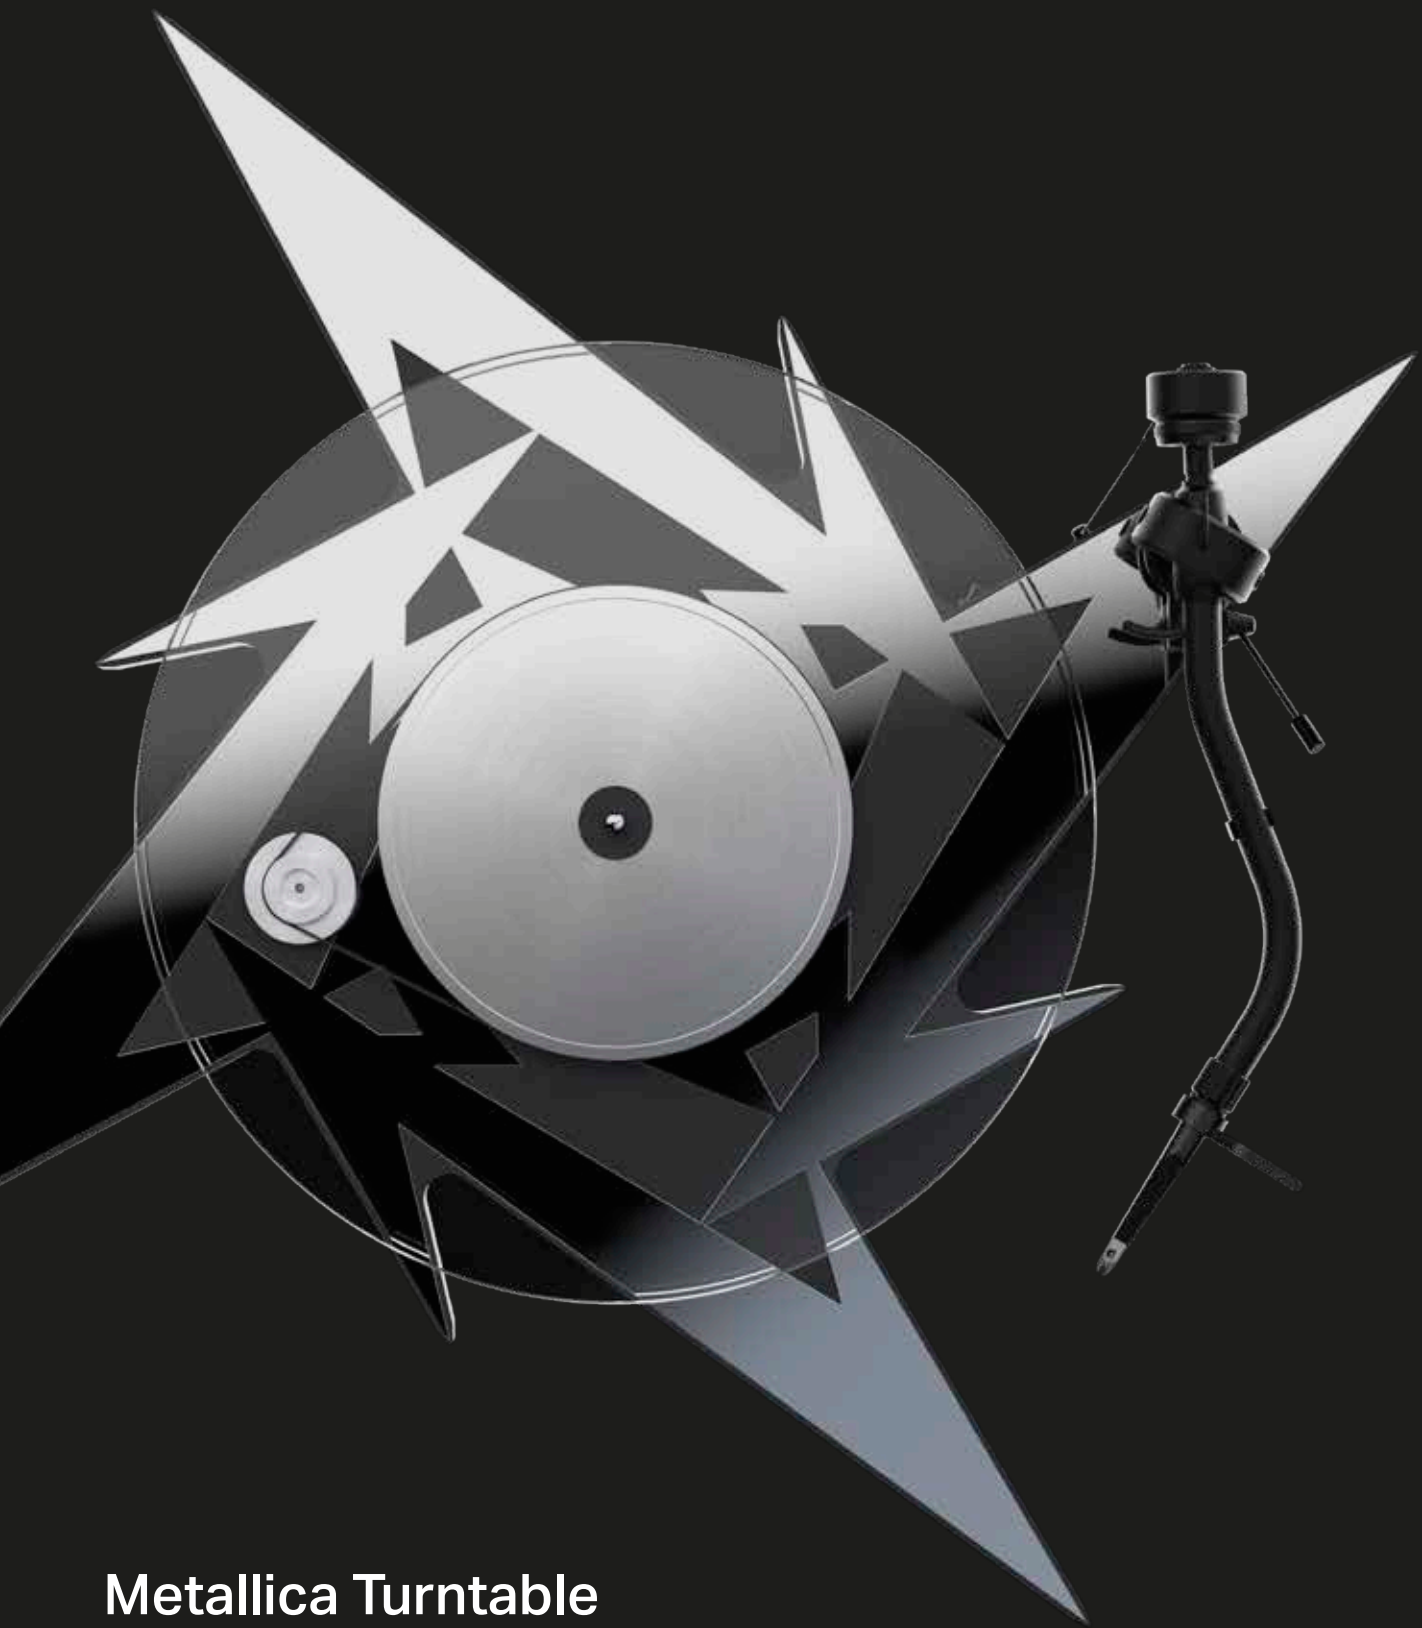

Cartridge not included (n/c)	Platter 10.2 kg heavy acryl Stainless steel-bearing with soft brass bushing	Output 5P/Phono Out	Included Items Connect it CC (Modell 5P-CC) Record puck, gloves, spirit level...
Chassis Piano-lacquer chassis with magnetic decou- pling or veneered with walnut burl satin or high-gloss.	Tonearm Single-pivot tonearm in high gloss metal surface	Drive Principle Motor control system for perfect speed stability	Speed 33/45 RPM electronic switch
		Feet Height adjustable, black aluminium	Size and Weight 570 x 440 x 234 mm (W x H x D) 34,6 kg (net)

Colour Options	  	Piano Black, Olive, Mahagoni: 9.999 € n/c
	 	High Gloss Walnut Burl, Satin Walnut Burl: 10.999 € n/c

HIFI ELECTRONICS

BT Box E HD

- Wireless music streaming in high definition • BT 5.0 + aptX and aptX HD • Easy to install and use • Fast auto pairing (3 to 5 seconds) • Up to 8 different BT sources are memorized • Works within a range of approximately 10 meters
- RCA analogue and Toslink digital outputs (switchable) • Outboard power supply included • Black or White casing

☐ ☒ 159 €

DAC Box E

- 24bit / 192kHz D/A conversion • Co-axial (RCA) & optical (Toslink) S/PDIF input
- SMD circuitry • Special low noise components • Internal metal shielding
- Small size allows installation close to source • Gold plated RCA connection sockets • Outboard power supply included • Black or White casing

☐ ☒ 109 €

Optical Box E Phono

- Multi-purpose phono preamplifier with A/D conversion and 2 output options: Line level and digital optic! • Especially for use with devices with no analogue input such as home cinema receivers, soundbars etc • Analogue RCA and digital optic output work simultaneously • Works as input extender (2>1) or output splitter (1>2) • 2 Inputs: 1 Phono and 1 Line In • Suitable for MM cartridges • Precise RIAA equalisation • Low noise circuitry • Internal metal shielding • Gold-plated RCA inputs • Outboard power supply included • Black or White casing

☐ ☒ 149 €

Phono Box E

- Amplification and RIAA equalisation for MM cartridges • Design principle inspired by Dr. Sykora • SMD circuitry • Special low noise components • Internal metal shielding • Small size allows installation close to record player • Gold plated RCA connection sockets • Outboard power supply included • Dimension: 120x32x100/106 mm (WxHxD/D with sockets) • Weight: 269 g without power supply • Black or White casing

☐ ☒ 79 €

SOURCES

Phono Box E BT 5

- Connect your turntable wirelessly • Bluetooth 5.2 streaming with aptX Adaptive and HD support • 2 Inputs: 1 Phono and 1 Line Input • Suitable for MM cartridges
- Precise RIAA equalisation • Use analogue RCA & BT output simultaneously
- Low noise circuitry • Internal metal shielding • Gold-plated RCA connectors
- Outboard power supply included • Black or White casing

☐ ☒ 159 €

Record Box E

- Amplification and RIAA equalisation for MM & MC • Design principle inspired by Dr. Sykora • Digitalisation of vinyl for recording direct to USB with suitable recording programs • Automatic recognition, no additional drivers needed • Runs on Windows®, Mac OS® & Linux operating systems • SMD circuitry with special low noise components • Internal metal shielding • Small size allows installation close to record player • Gold plated RCA connection sockets • Outboard power supply included • Black or White casing

☐ ☒ 129 €

PHONO

Control it

- Manage all components with a single remote • Pre-programmed - no setup necessary • Simple and easy to use • Widespread IR emission up to 135°
- Rugged design • Dimension : 47x30x210 mm (WxHxD)

☒ 29,90 €

REMOTE CONTROL

DAC Box E Mobile

- Portable D/A converter • High resolution support up to 32bit/192kHz • USB-C input • Extreme compact form factor • No batteries needed • Solid metal casing
- Dimension: 28 x 14 x 69.2 mm (WxHxD) • Colour options: silver or black

☐ ☒ 99 €

MOBILE

Phono Box MM

- Metal case shields the electronics from vibrational and electromagnetic interference
- Special low-noise ICs used
- Optimal channel separation through dual-mono circuitry
- Gold plated RCA connection sockets
- DC power supply (< 1 watt standby power)
- Amplification and RIAA equalisation for MM cartridges
- Small size allows installation close to record player
- Dimensions: 107x30x75 mm (WxHxD)
- Weight: 280g without power supply

79 €

Phono Box

- Preamplifier for MM or MC with switch on rear panel
- Best buy classic
- DC power supply (< 1 watt standby power)
- Precise RIAA equalisation
- Low noise ICs
- Output stage with ultra-low impedance
- Gold-plated RCA sockets
- Small size for installation near recordplayer
- Dimensions: 103x36x104 / 115 mm with sockets (WxHxD)
- Weight: 570 g
- Faceplate in silver or black

99 €

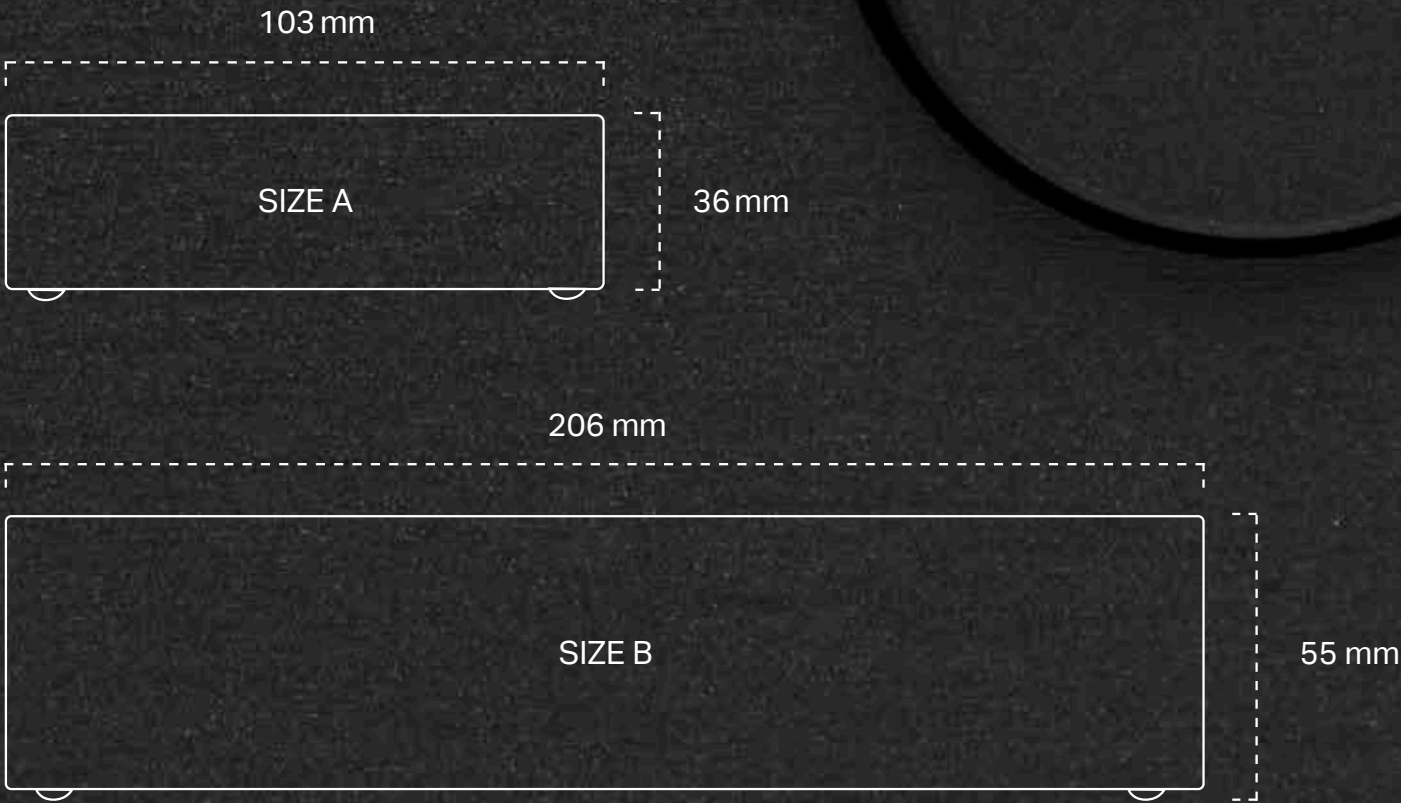

PHONO

Our Entry Line HiFi Electronics

What is S-Line?

We designed a range of high-end electronic micro components, engineered and manufactured according to the same principles as our acclaimed turntables. The idea is to make the devices as small as possible, but still have breathtaking sound performance.

Head Box S2

- Audiophile headphone amplifier • Suitable for demanding headphones
- 6.35mm and 3.5mm headphone output • Bypass RCA loop output for additional amplifier
- Superior low distortion • Low noise components for ultimate sound performance
- Small footprint • Both outputs usable simultaneously
- Aluminium/metal sandwich casing protects against vibrations and electromagnetic interference
- Available in silver or black

139 €

Head Box S2 Digital

- Headphone amplifier and DAC with 32bit and DSD256 support
- High end ESS Sabre ESS9038 DAC
- Proprietary clock circuitry design
- Organic polymer capacitors and thin film miniMELF resistors
- 32bit / 768kHz decoding
- DSD64, DSD128 & DSD256 (DSD over PCM)
- Up to 24bit/192kHz for optical & coax inputs
- 5 selectable digital filter characteristics
- 1 proprietary optimum transient digital filter
- Headphone output on the front (6.3mm)
- Synchronization of all internal oscillators
- Jitter as low as 100 Femtoseconds!
- Gold plated four layer PCB
- Available in silver or black

329 €

Pre Box S2 Analogue

- Stereo Line preamplifier
- Advanced circuitry with premium components
- Neutral sound with superior low noise floor
- 3 Stereo Line inputs
- 1 fixed line output
- 1 pre output
- Motorised volume control
- SMD for short signal paths
- Low output impedance for low loss with long cables
- Gold-plated connections
- Remote control for on/off, input select, volume
- Trigger outputs for Amp Box S2
- Alu/Metal casing protects against vibration and interference
- Weight: 405 g without power supply
- Available in silver or black

249 €

Amp Box S3

- Micro audiophile stereo power amplifier
- The new Amp Box S3 offers one stereo RCA input and delivers powerful and room-filling sound to every loudspeaker. The new PCB concept & sophisticated topology achieves less distortion and a better signal to noise ratio. We designed this amp to match the sound characteristics of a tube amplifier as close as possible.

299 €

Stereo Box S3 BT

- Suitable for demanding headphones • 6.35mm and 3.5mm headphone output
- Bypass RCA loop output for additional amplifier • Superior low distortion • Low noise components for ultimate sound performance • Small footprint • Both outputs usable simultaneously • Aluminium/metal sandwich casing protects against vibrations and electromagnetic interference • Weight: 365g without power supply • Colour options: silver or black

399 €

MaiA S3

The MaiA (My Audio Integrated Amplifier) S3 is the all in one solution for your hifi system. Not only the circuit design was reworked, also the case has been significantly changed and the MaiA S3 uses our new S3 case. Due to the bigger size we were able to improve the circuit board layout in terms of electromagnetical interference. With its 8 inputs you are ready for any kind of source device.

- **NEW** Bluetooth 5.0 - aptX HD capable (24-bit, up to 48kHz) • 2 x 40 watts @ 4 ohms • Dual mono design principle • 8 inputs (5x analog, 3x digital & 1x wireless BT) • Cirrus Logic CS4344 24bit/192kHz Multi-bit Delta Sigma • S/PDIF inputs support up to 24bit and 192kHz • Phono MM, MI + high output MC input • Analogue volume control with motor driven potentiometer • 6,3mm jack headphone output • Variable output for subwoofer or second zone amp

599 €

Phono Box S2

- Audiophile performance • Dual mono configuration • Audiophile-grade amplification modules • Audiophile-grade polypropylene WIMA capacitors
- Precise RIAA equalisation • Switchable Subsonic filter –12dB @ 20Hz
- Switchable input impedance/capacitance • 4 adjustable gain levels
- Outstanding sound quality • Weight: 570 g net • Colour options: silver or black

179 €

Phono Box S2 Ultra

- Audiophile performance • No Operational Amplifiers used • Audiophile-grade polystyrene capacitors • Precise RIAA equalisation • Switchable Subsonic filter –18 dB @ 20Hz • Switchable input impedance/capacitance • 4 adjustable gain levels • Outstanding sound quality • Weight: 570 g net • Colour options: silver or black

249 €

Phono Box S3 B

Our Phono Box S3 B comes in a complete new casework. Due to the bigger case, we were able to bring new features into our S3 phono preamplifier. The new steel & aluminium chassis with full aluminium buttons brings very good rigidity and splendid isolation against interferences.

- **NEW** 5-pin mini XLR balanced input • NEW balanced XLR outputs • NEW fully symmetrical & discrete gain stage • NEW easy settings adjustment on the face-plate • MM & MC capable • Dual mono design • Semi-passive RIAA equalization • Superior low noise / low distortion

399 €

Tube Box S2

- Suitable for MM and MC cartridges • Precise RIAA equalisation in two parts, passive/active • Fully discrete circuit design without OpAmps • 2x ECC83 tubes (replaceable) • Front-sided Subsonic filter button • Front-sided Gain control
- Ultra low noise circuitry with FET input stage • Dual mono circuitry for optimized channel separation • Polystyrene capacitors used where possible
- Gold-plated RCA in-and outputs • External power adaptor and multiple internal power supplies • Well-filtrated high-voltage anode power supply • Dimensions (with sockets & Tubes): 103x73x131 mm (WxHxD) • Weight: 410 g without power supply • Colour options: silver or black

379 €

PHONO

Vinyl NRS Box S3

- Audiophile performance • No Operational Amplifiers used • Audiophile-grade polystyrene capacitors • Precise RIAA equalisation • Switchable Subsonic filter –18 dB @ 20Hz • Switchable input impedance/capacitance • 4 adjustable gain levels • Outstanding sound quality • Weight: 570 g net • Colour options: silver or black

329 €

Power Box S3 Phono

- Cleanest power for your phono setup! The power supply is a very important part of the audio path and significantly contributes to the sonic quality of an audio product. • Superlative audiophile power supply • No disturbing interferences through mains • 1 x 18V output for phono stages • 1x15V output for turntables
- Low noise components • Full aluminium/metal casework silver or black

179 €

Tuner Box S2

- Micro-sized FM-Tuner • 99 presets • Manual or automatic tuning • Adaptive noise reduction • High-contrast dot-matrix display • Display of frequency, preset number, centre of station, Stereo or Mono reception, signal strength • Trigger switching (on/off) • Full function IR remote control • Tuning range FM-band: 87,5 - 108MHz (50kHz steps) • Full aluminium/metal casework • Weight 315 g (without power supply) • Colour options: silver or black

● ● 179 €

CD Box S3

The CD Box S3 is our first product of the new S3 line. In contrast to DVD or Blu-ray Disc players, a pure CD player is frequently better in playback of stereo CDs. The drive in the CD Box S3 enables 1:1 bit-accurate CD playback. The new DAC chip provides the best digital analog conversion with a bit depth & sampling rate up to 32bit/384kHz. The slot in mechanism smoothly draws in the CD and after a few seconds it is ready to play.

- NEW 1,54" display with colour inversion function • Slot-in mechanism • 32bit/384kHz DAC for precise playback of Audio-CDs • RCA line level analog output • Coaxial S/PDIF digital output

● ● 449 €

DAC Box S2 +

- High end ESS Sabre ESS9038 DAC • Proprietary clock circuitry design • Organic polymer capacitors and thin film miniMELF resistors • 32bit / 768kHz PCM support • DSD64, DSD128 & DSD256(DSD over PCM) • Up to 24bit/192kHz for optical & coax inputs • 5 selectable digital filter characteristics • 1 proprietary optimum transient digital filter • Synchronization of all internal oscillators • Jitter as low as 100 Femtoseconds • Gold plated four layer PCB • Weight: 355g without power supply • Full alu/metal sandwich casing • Colour options: silver or black

● ● 299 €

Pre Box S2 Digital

- Dual mono construction • High end ESS Sabre ESS9038 dual DAC • Proprietary clock circuitry design • Organic polymer capacitors and thin film miniMELF resistors • MQA hardware decoding • DSD64, DSD128, DSD256 & DSD512 (DoP, DSD512 native) • Up to 24bit/192kHz for optical & coax inputs • Headphone output on the front (6.3mm) • Synchronization of all internal oscillators • Jitter as low as 100 Femtoseconds • Gold plated four layer PCB • Weight: 366 g (without power supply) • Full alu/metal sandwich casing • Colour options: silver or black

● ● 399

Control it Pre Box S2 Digital

69 €

SOURCES

BT Box S2 HD

- Wireless music streaming with almost CD-quality • Bluetooth 3.0 • Supports aptX & SBC codecs • Easy to install and use • Fast auto pairing (3 to 5 seconds) • Up to 8 different Bluetooth sources are memorized • Works within a range of approximately 10 meters • RCA stereo analogue and optical Toslink output • Outboard power supply included • Antenna included • Dimensions (with sockets): 116x37x108 mm (WxHxD) • Weight: 320 g • Colour options: silver or black

● ● 199 €

Stream Box S2 Ultra

- High resolution network bridge • Audio optimized USB A output • Multi-room enabled • Dual USB A input for external storage • TIDAL supported • Spotify Connect • Network-enables any modern DAC with USB input • Internet radio • DLNA enabled • Bypasses all audio formats to the DAC • Cleans up the audio signal from a PC • Roon ready • Shairport • Bluetooth (for control) • Uses dedicated power supplies • HDMI video output • Controllable via smart devices and PC/Laptop • New control app • Ethernet and WiFi connectivity • Weight: 375 g (without power supply) • Colour options: silver or black

● ● 699 €

Stream Box S2

- Compact multiroom streamer • 24/192 streaming client • Spotify Connect, TIDAL • TuneIn, iHeartRadio internet radios • UPnP, DLNA support • Multi-room • Stereo pairing • ESS9023 DAC • WAV, ALAC, FLAC, MP3, APE, AAC • Line Input • Fixed, variable analogue & optical ouputs • Shairport • WiFi 802.11 b/g/n • Free control App „Pro-Ject Stream S2“ (iOS/Android) • Full aluminium/metal casework • Weight 375 g (without power supply) • Colour options: silver or black

● ● 299 €

Accu Box S2

- Superlative audiophile power transmission • Accu driven power supply
- No disturbing interferences through mains • Perfect for all phono electronics
- 1 x 18V output • 1 x 5V USB A output • LED indication for charging and mains
- Full aluminium/metal casework • Weight: 545 g, without power supply • Colour options: silver or black

○ ● 259 €

POWER

Remote Box S2

- Controls all Box Design components • App control for enhanced comfort
- Bluetooth range up to 10m (antenna included) • Remote function for a wide array of IR receivers • Free Box Control App available for Android and iOS
- On/Off front-sided • Colour options: silver or black

○ ● 199 €

REMOTE CONTROL

Head Box DS2 B

- Enough power to drive demanding headphones • Dual mono design principle
- Four gain settings to match any headphone • Three current settings to deliver best sonics • Single ended (6.3 mm) and balanced (4 Pin XLR) headphone output
- Both outputs usable simultaneously • Phase inverter built in at input stage to convert unbalanced signal to a balanced one for superior sound • Powerstage realized by two TPA6120A2 chips • BLUE ALPS potentiometer for best volume control • Weight: 1461 g (Alu) without power supply; 1940 g (Wood) without power supply • Wooden side pannels are optional available!

599 €

Pre Box DS2 analogue

- Analogue RCA inputs • Fixed line level output as well as variable output • Mono subwoofer RCA output • Trigger in/out • RCA Line Level solid state output • Ultra linear circuit • Coupling-capacitor free signal path • Ultra low noise floor • IR remote control supplied • Magnetic wooden side panels avaialable separately

549 €

Amp Box DS2

- Superior Class D modules • Impressive signal spectrum and lower distortion
- High efficiency from mains to audio power • Low heat emission • Stereo level input (RCA) • Loop output (RCA) • Isolated speaker outputs • Trigger input & loop out • Elegant aluminium - metal sandwich casing • 2x140/100 watts 4/8 Ω
- Weight: 1670 g (Alu) without power supply; 2130 g (Wood) without power supply • Magnetic wooden side panels avaialable separately

699 €

Stereo Box DS3

- Dual mono design principle • Built-in phono pre-amplifier with MM & MC capability • Other inputs: 3x analogue, 1x Bluetooth • 4th generation Bluetooth with aptX capability & antenna • Volume control with motor driven potentiometer
- Headphone output with dedicated amplifier stage • Fixed & variable outputs for subwoofer or second zone amp • Trigger In and Output • IR remote & built-in App Remote Control via Bluetooth • Free Box Control App controls this device & other IR equipment • Magnetic wooden side panels avaialable separately

899 €

MaiA DS3

The MaiA DS3 (My audio integrated Amplifier) is our new reworked all-in-one compact amplifier solution. It combines both, analogue and digital inputs to suit all different sources. With its 140 watts per channel at 4 ohms you can easily power your favourite speakers. MaiA DS3 is handmade in Europe and available in an either black or silver finish. Magnetic wooden side panels available separately

- Stereo integrated amplifier with 9 inputs
- Powerful 140 watts per channel at 4 ohms
- PCM 1795DB 32bit/192kHz Delta-Sigma DAC
- BT 5.0 receiver with aptX, aptX HD, A2DP profile
- 9 different analog & digital inputs
- Sub output & variable output
- Phono input - MM & MC capable
- Dual mono design
- XMOS asynchronous USB 24bit/192kHz
- DSD capability (DSD64, DSD128; DSD256)
- Headphone output 2 x 430mW at 32ohm (1%THD)
- Trigger in- & output

☐ ☒ 1.199 €

CD Box DS3

SOURCES

- HiRes capable CD player and DAC
- PCM up to 32/384 and DSD256 (DoP) - via USB input
- Four digital inputs (2x optical, coaxial, USB B)
- Two digital outputs (optical, coaxial)
- Line Level output (RCA)
- Excellent 4-layer suspended CD transport
- Blue Tiger CD-80 servo board for 1:1 CD playback
- Luxurious slot-in mechanism
- DC power supply (<1watt standby power consumption)
- High contrast dot-matrix display
- Trigger in and output
- Solid cabinet protects against vibration and interference
- Magnetic wooden side panels available separately

☐ ☒ 699 €

CD Box DS2 T

- Three digital outputs (Optical, S/PDIF Co-axial and AES/EBU)
- Excellent 4-layer suspended CD transport
- „Blue tiger“ servo board for 1:1 CD playback
- Luxurious slot-in mechanism
- DC power supply (<1 Watt standby power consumption)
- High contrast dot-matrix display
- Trigger in and output
- Massive 3 mm aluminium faceplate
- Solid cabinet protects against vibration and interference
- Magnetic wooden side panels available separately

☐ ☒ 649 €

Phono Box DS3 B

The Phono Box DS3 B employs a true fully balanced gain stage design. Connect your turntable either with the 5-pin mini XLR cable or standard XLR cables & profit of the balanced signal path. Symmetrical, or also called balanced, transmissions consist of a hot and a cold (also called + and -) signal. Both signal chains effectively carry the same musical information.

- balanced XLR in- & outputs • 5-pin mini XLR balanced input • fully symmetrical & discrete gain stage • fully passive & discrete RIAA equalisation • fully discrete audio circuitry - NO Op-amps! • MM & MC capable • Balanced & single ended in- & output • Dual mono design • Continuously variable input impedance loading
- Most precise MC cartridge matching • Superior low noise / low distortion • Trigger in- & output • Heavy aluminium casing protects against interference • Available in silver or black • Magnetic wooden side panels available separately

599 €

Phono Box DS2

- Suitable for MM and MC cartridges • Precise RIAA equalisation • Dual mono circuitry for optimized channel separation • Selectable input impedance on front
- Selectable input capacitance on front • Low noise ICs • Gold-plated RCA in & outputs • Sandwich alu/metal casing protects from vibrations and electromagnetic interference • Weight: 1320 g (Alu); 1770 g (Wood) without power supply
- Magnetic wooden side panels available separately

349 €

Tube Box DS2

- Suitable for MM and MC cartridges • Precise RIAA equalisation • Ultra low noise circuitry • Selection between 2 phono inputs & 2 line outputs • Dual mono circuitry for optimized channel separation • Selectable input impedance (for MC: fix or variable) • Selectable input capacitance (for MM) • Selectable subsonic filter
- Gold-plated RCA in & outputs • Sandwich alu/metal casing protects from vibrations and electromagnetic interference • Dimensions (WxHxD): 206x91x227 mm (Alu); 240x93x227 mm (Wood) • Weight (without power supply): 1500 g (Alu) 1960 g (Wood) • Magnetic wooden side panels available separately

799 €

PHONO

Power Box DS3 Sources

- Universal linear power supply for up to 5 components & 1 turntable • Purest & cleanest power using non-switching power supply • Not suitable for integrated & power amplifiers, receivers etc • Soft start system avoids current inrush in primary winding • Audio type toroidal transformer • Main isolating transformer with copper foil shielding • Secondary voltage rectification with precise regulation
- High filtration capacity (10.000 µF) • Low ESR capacitors • Low noise components with surge protection • Input voltage: AC 115/230V, 50/60Hz IEC C15 connector • Output voltage ripple: < 1mV • Magnetic wooden side panels available separately

699 €

Power Box DS2 Amp

- Linear Power Supply Upgrade for Pro-Ject DS2 Series Power Amplifiers
- Replaces original "switching" power supplies • Significant sound improvement with better dynamic and bass response, improved soundstage • Big toroidal transformer with copper shielding • Massive 3 mm aluminium faceplate • Solid cabinet protects against vibration and interference • Very low output impedance
- Filtration capability 40.000 uF capacitors low ESR types • Weight: 4700g (aluminium) • Magnetic wooden side panels available separately

599 €

Magnetic Side Panels

Magnetic wooden side panels are now available for all DS2/DS3 products. The magnets inside the panel make the installation very easy & you can always change the style of your HiFi components.

New RS2 Components

The RS2 Line is our new ultimate high-end series, taking our RS Line design approach to the next level.

Amp Box RS

- Fully balanced double mono design (Pulse Wave Modulation) • Highly efficient conversion from mains to output power (92%) • 2 ohms drive capability • Tube buffer stage with reference quality • SMD construction for shortest signal paths
- Line level preamp inputs (RCA & XLR) • Top-quality speaker terminals • Metal casing protects against vibration and interference • DC power supply (< 1 Watt standby power) • 2x180/110 watts 4/8 Ω • Dimensions (with sockets): 206x72x220 mm (WxHxD) • Weight: 2120 g without power supply
- Available in silver and black

999 €

AMPLIFIER

CD Box RS2 T

- Ultimate CD Transport • Toploading CD drive • Magnetic clamp • Plays CD Audio, CD-R, CD-RW, Hybrid SACD • Blue Tiger CD-Pro 8 top loading module with suspension system and CD-84 servo board • I2S + Masterclock via HDMI connector • LCD screen displays time, tracks, text (if available) • Gravity design with central mass point • Supports: CD, CD-R, CD-RW (finalized) and Hybrid-SACD (44.1kHz/16bit CD layer only) • Digital outputs: AES3: 1 x balanced (AES/EBU) on XLR connector S/PDIF: 1 x optical (Toslink®) 1 x coaxial (RCA socket) I2S + Master Clock: 1 x HDMI connector • Aluminium IR remote included • Available in a silver or black high-quality aluminium chassis • Dimensions W x H x D (D with sockets): 206 x 78 x 200 (210)mm • Weight: 3.000g without power supply
- Available in silver and black

2.495 €

SOURCES

Pre Box RS2 Digital

- Dual Mono DACs: 2 x ESS9038Q2M 32-bit • PCM 32Bit/768kHz, DSD512 (over USB) • 7 digital inputs: i2S HDMI, AES/EBU, Toslink, S/PDIF coax, USB, Bluetooth
- 2 analogue inputs: unbalanced RCA, balanced XLR • 7 digital + 2 analogue filters • Unbalance RCA, balanced XLR, Headphone outputs • Hardware MQA Decoder and Renderer • Advanced upsampling and re-clocking for MQA and PCM
- Output stage switchable between tube and solid state • i2S + Masterclock connection over HDMI for use with CD Box RS2 T • IR remote in full aluminium chassis included • Available in silver and black

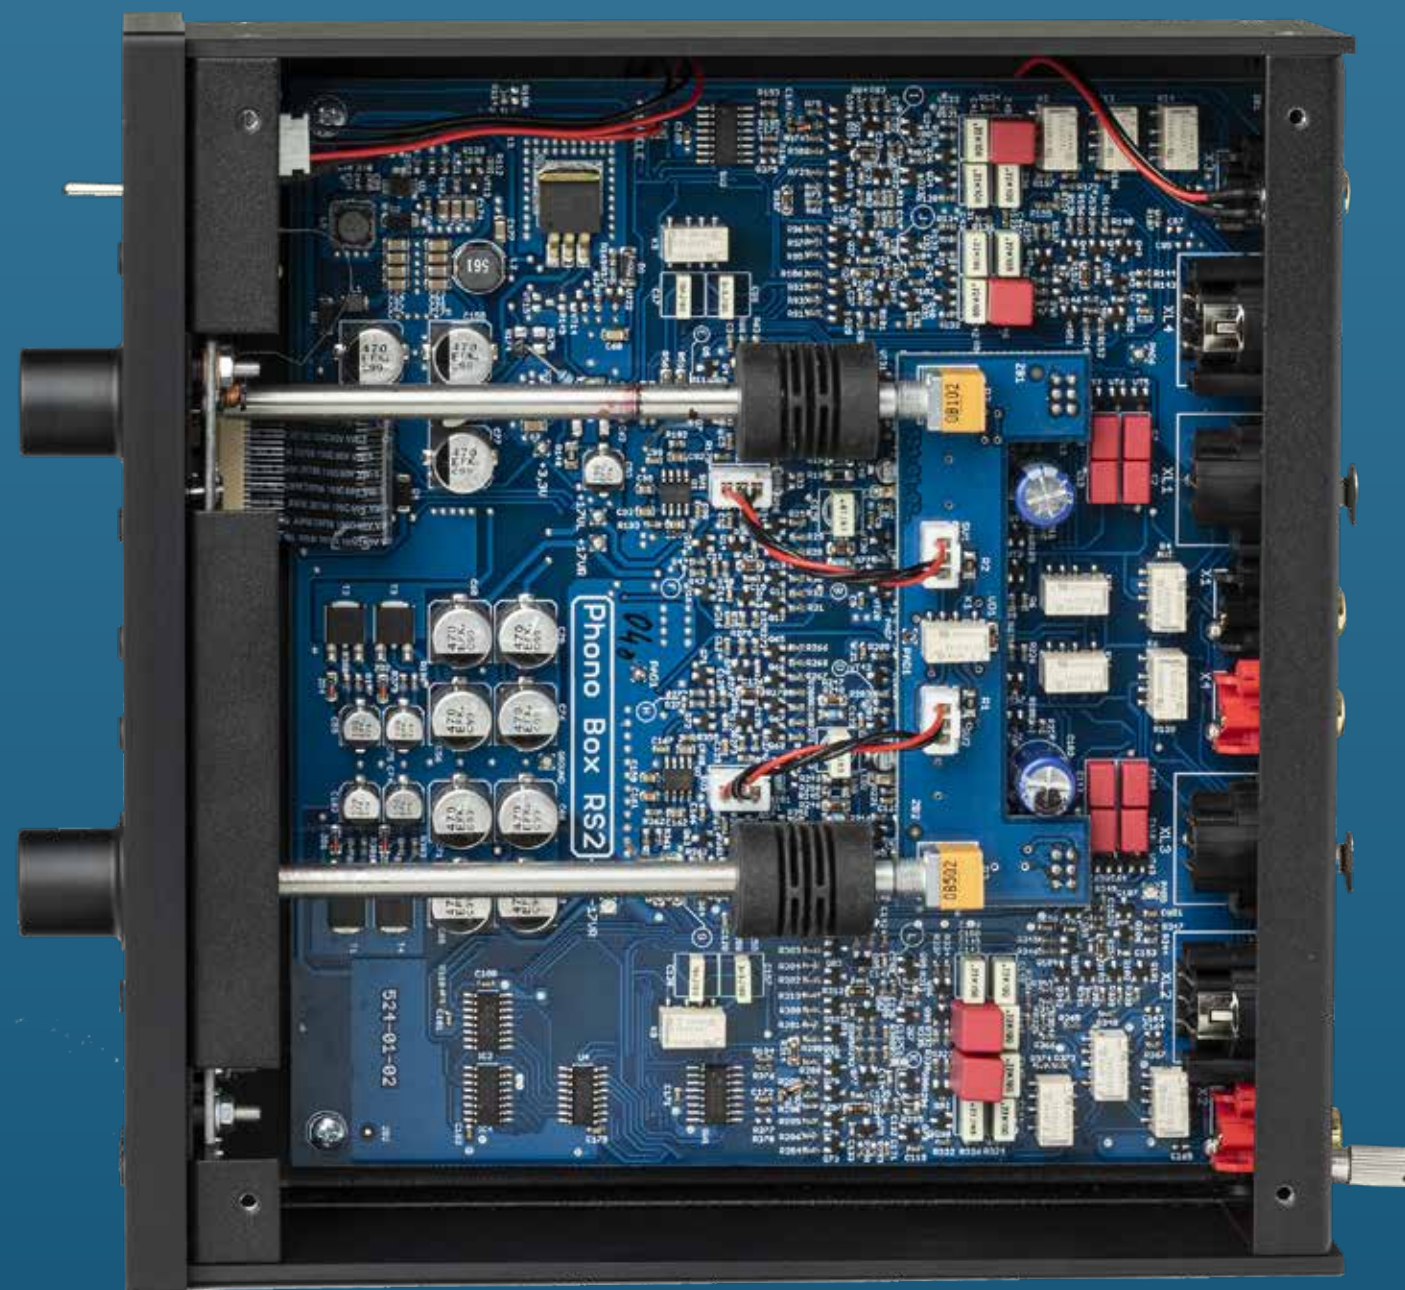

2.199 €

DAC Box RS2

- Dual Mono DACs: 2x ESS9038Q2M • High Quality optionally selectable upsampling of PCM and/or MQA content with proprietary filtering • Advanced re-clocking powered by new XMOS chip with Mult-Core RISC architecture • 6 digital inputs: asynchronous USB, i2S HDMI, AES/EBU, Toslink, S/PDIF coax • Fully balanced double mono design • Output stage switchable between 6922 tube & solid state • Ultra-linear and ultra low noise • New high-quality display with responsive and fast UI design • High quality full Aluminium remote control included
- Available in silver and black

1.799 €

PHONO

Phono Box RS2

- Fully balanced, fully discrete phono preamp of the highest class • MM & MC capable • Fully balanced, true dual mono design • Fully discrete hardware design - NO Op-amps! • Fully passive RIAA & DECCA equalisation • Balanced XLR & unbalanced RCA In & Outputs • Unique continuously variable input impedance loading and channel balance control to match every cartridge to 100% (adjustment even while playing) • Superior low noise / low distortion • Metal casing protects against vibration and interference • Available in silver or black

1.599 €

Phono Box RS

- MM & MC capable • True dual mono design • Balanced XLR & unbalanced RCA In & Outputs • Fully passive RIAA & DECCA equalisation • Unique continuously variable input impedance loading, matches every cartridge (adjustment even while playing) • RCA & XLR In & Out • Superior low noise / low distortion • Classy & elegant dip switches • DC power supply (< 1 watt standby power) • Metal casing protects against vibration and interference • Dimensions (with sockets): 206x72x210 mm (WxHxD) • Weight: 2000 g without power supply • Available in silver or black

999 €

Power Box RS Amp

- Suitable for Pro-Ject Audio Systems power amplifiers • Replaces original "switching" power supplies • Almost double amplifier power output combined with Amp Box RS, Amp Box DS & Stereo Box RS (2x 200/120 watts 4/8 ohms) • Significant sound improvement with better dynamic and bass response, improved soundstage • Compatible with Amp Box RS, Amp Box RS Mono, Stereo Box RS but also with Amp Box DS or Amp Box DS Mono • Big toroidal transformer with copper shielding • Very low output impedance • Filtration capability 40.000 uF capacitors low ESR types • Dimensions: 201x72x195 mm (WxHxD) • Weight: 4800 g • Available in silver or black

699 €

Power Box RS2 Phono

- All in one power supply for your phono setup • Powers any Pro-Ject 15V DC turntable • Powers any Pro-Ject phono stage • Cleanest power using non-switching power supply • Soft start system avoids current inrush • Audio type toroidal transformer • Main isolating transformer with copper foil shielding • Secondary voltage rectification with precise regulation • High filtration capacity (10.000 µF) • Low ESR capacitors • Low noise components with surge protection • Available in silver or black

899 €

POWER

Power Box RS2 Sources

- Purest & cleanest power using non-switching power supply
- Soft start system avoids current inrush in primary winding
- Audio type toroidal transformer
- Main isolating transformer with copper foil shielding
- Secondary voltage rectification with precise regulation
- High filtration capacity (10.000 µF for each output)
- Low ESR capacitors
- Low noise components with surge protection
- Available in silver or black

449 €

Power Box RS Uni TT

- Specially developed for turntables with heavy platters (RPM, Xtension & Signature Line)
- Purest & cleanest power using non-switching power supply
- Soft start system avoids current inrush in primary winding
- Audio type toroidal transformer
- Main isolating transformer with copper foil shielding
- Secondary voltage rectification with precise regulation
- High filtration capacity (10.000 µF)
- Low ESR capacitors
- Low noise components with surge protection
- Available in silver or black

549 €

Control it RS

- Pre-programmed system remote
- Control several Box Design components with a single remote
- Replaces standard Box Design IR remotes
- Compatible with RS products
- Batteries included
- Full aluminium housing & buttons

199 €

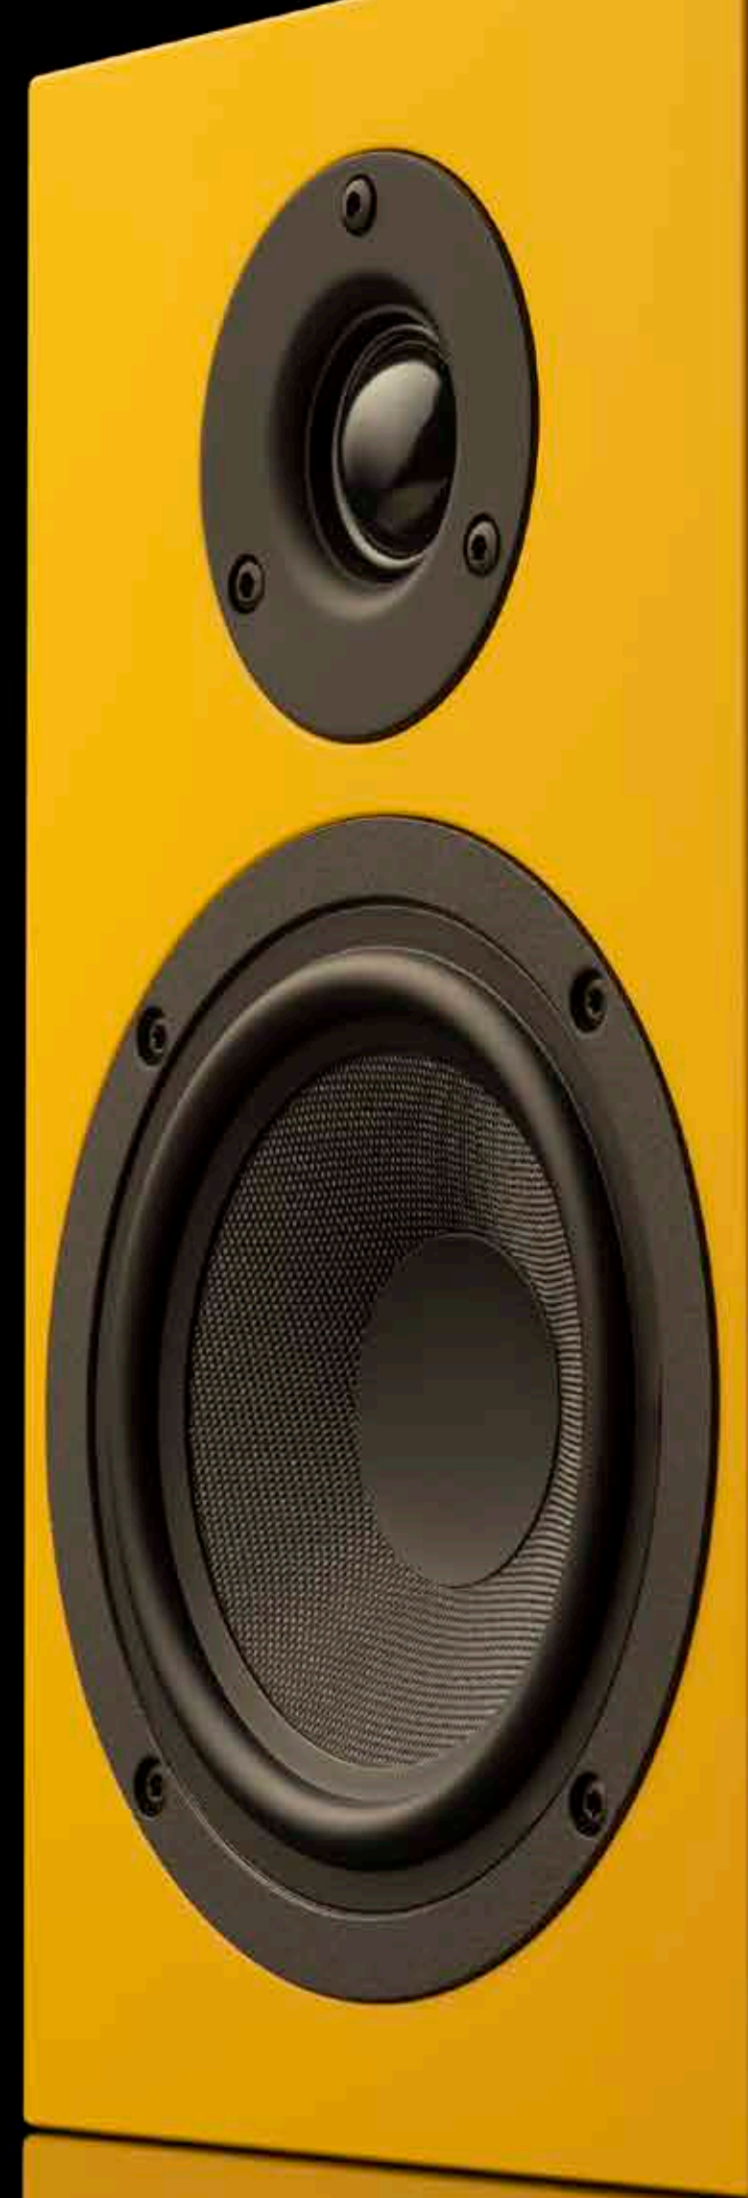

POWER

REMOTE CONTROL

Speaker Box 5 S2

SPEAKERS

Speaker Box 5

- Audiophile bass-reflex design • Recommended amplifier power 10 to 150 watts • Magnetically shielded • Front cover with magnetic attachment
- Frequency response 55Hz - 20kHz • Gold-plated speaker terminal (single-wired) • Simple Wall-mount included • Speaker-Box Wall Bracket available as an option • Dimensions: 160x255x210 mm (WxHxD) • Weight: 4.2 kg • Colour options: High gloss white, black, red and walnut

    279 €

Speaker Box 10

- Audiophile 2-way design • Rear-ported bass-reflex cabinet • Recommended amplifier power 10 to 150 watts • 1" Silk dome tweeter • 2 x 4.5" paper cone midrange/woofers • Magnetic front grilles • Frequency range 50Hz - 20kHz
- Single-wired speaker terminal • Comes with adjustable spikes
- Dimenson:140x920x190 mm (WxHxD) • Weight: 11.7 kg, net each
- Colour options: High gloss white, black and red

 599 €

Sub Box 50

- Audiophile subwoofer • Full sound for any room • Compact size • Perfect companion for Speaker Box 5 and 10 • Low and high level input • Three amplifier modes • Down-firing bass driver • Metal back plate • Ultra stiff non resonating MDF cabinet Dimensions: 205x280x205 mm (WxHxD) • Weight: 6.0 kg • Colour options: High gloss white, black and red

   299 €

Speaker Box 5 S2

- Audiophile bass-reflex design • Sophisticated internal bracing • Ultra stiff non resonating MDF cabinet • Audiophile direct-wired crossover - no PCB • Lead free solder • Ecofriendly glue from Kleiberit • Acoustically transparent front cover with magnetic attachment • Gold-plated speaker terminal (single-wired) • Handmade in Europe • Dimensions: 160x271x215 mm (WxHxD) • Weight: 4.9 kg
- Colour options: Satin White, Satin Black, Walnut, Eucalyptus, Satin Fir Green, Satin Steel Blue, Satin Golden Yellow

       649 €

Speaker Box 10 S2

- Audiophile 2.5-way design • Rear-ported bass-reflex cabinet • Sophisticated internal bracing • Ultra stiff non resonating MDF cabinet • Audiophile direct-wired crossover - no PCB • Lead free solder • Ecofriendly glue from Kleiberit
- Acoustically transparent front cover with magnetic attachment • Gold-plated speaker terminal (single-wired) • Handmade in Europe • Dimensions: 140x898x195 mm (WxHxD) • Weight: 12.7 kg, net each • Colour options: High gloss black and white and real wood finishes: walnut, eucalyptus

  999 €

Speaker Box 5 DS2

- Audiophile bass-reflex design • Sophisticated internal bracing • Ultra stiff non resonating MDF cabinet • Audiophile direct-wired crossover - no PCB • Lead free solder • Ecofriendly glue from Kleiberit • Acoustically transparent front cover with magnetic attachment • Gold-plated speaker terminal (single-wired)
- Handmade in Europe • Dimensions: 160x271x215 mm (WxHxD) • Weight: 5.0 kg • Colour options: High gloss black and white and real wood finishes: walnut, eucalyptus

799 €

Speaker Box 10 DS2

- Audiophile 2-way design • Rear-ported bass-reflex cabinet • Sophisticated internal bracing • Ultra stiff non resonating MDF cabinet • Audiophile direct-wired crossover - no PCB • Lead free solder • Ecofriendly glue from Kleiberit
- Acoustically transparent front cover with magnetic attachment • Gold-plated speaker terminal (single-wired) • Handmade in Europe • Dimensions: 160x898x195 mm (WxHxD) • Weight: 12.8 kg, net each • Colour options: High gloss black and white and real wood finishes: walnut, eucalyptus

1.199 €

Speaker Box 15 DS2

- Audiophile 2.5-way design • Rear port bass reflex cabinet • Sophisticated internal bracing • Ultra stiff non resonating MDF cabinet • Gravity mass-point by sand filled cabinet • Audiophile direct-wired crossover - no PCB • Lead free solder
- Ecofriendly glue from Kleiberit • Acoustically transparent front cover with magnetic attachment (front and back) • Gold-plated speaker terminal (single-wired)
- Height-adjustable spike feet with supports • Handmade in Europe • Dimensions: 160x978x260 mm (WxHxD) • Weight: 20.6 kg, per piece • Colour options: High gloss black and white and real wood finishes: walnut, eucalyptus

1.599 €

ACCESSORIES

Cloth it

The perfect cleaning tool to polish your turntable and HiFi electronics. Made of microfibre material, purpose selected for the correct and non-abrasive cleaning of the satin and high-gloss finishes of our turntables.

12,90 €

Clean it

- Smooth cleaner for diamant stylus • Conductive carbon fibers
- Eliminates static charges • Removes finest dust particles

9,99 €

Grease it

- To be used with inverted bearings • Helps a smooth movement
- Pre-filled syringe • Easy handling

17,90 €

Lube it

- High-tech lubricant for constant velocity

22,90 €

Adapt it

- Adaptor for use with 7-inch single records • Locates record centrally on turntable • No plastic - precision CNC-machined • Non-magnetic aluminium
- Suitable for all brands and types of record players • Available in silver or black

16 €

Adjust it

- Suitable for all Pro-Ject tonearms • Allows fine adjustment of bearings, if misadjusted • Caution: for qualified personnel only • Includes 2 inserts for different bearings • Full metal (aluminium & brass)

29 €

Align it DS3

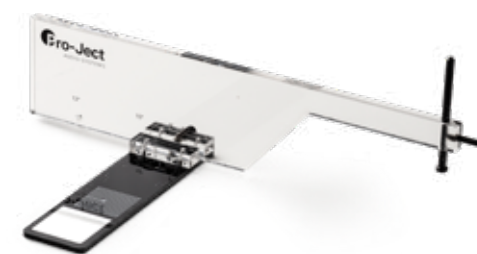

- Suitable for all Pro-Ject turntables • All adjustments on one tool: Overhang, azimuth and tangentiality • 3 different geometries: Baerwald, Löfgren B, Stevenson • Alignment curves for 8,6", 9", 10" and 12" tonearm • Detailed alignment instructions and guidance on how to choose the geometry that suits your listening habits most!

79 €

Align it PRO

- Suitable for all Pro-Ject turntables • High-precision alignment setup
- Super fast workflow • All adjustments on one tool: Overhang, azimuth and tangentiality • Baerwald geometry • Alignment for 8,6", 9", 10" and 12" tonearms
- Detailed alignment instructions and tonearm geometry explanation included

149 €

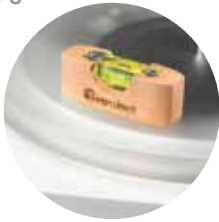

Level it

- Spirit level for optimum positioning of a turntable

34,90 €

Strobe it

- Control of turntable speed

29 €

Mount it

- Anti-magnetic precision screws • Stable installment of a cartridge • Made of stainless steel • Perfectly stable mounting of a cartridge • Three different sizes • Including allen key

15,90 €

Measure it E

- 4 digit LCD display with backlight • 4 weighing modes • Wide capacity 0 - 5g • Calibration weight • Precision data readouts with low variance • Auto calibration function • Auto power off after 30 seconds • Low power consumption • Button cell batteries included

24,90 €

Measure it S2

- Electronic stylus balance • 4 digit LCD-Display with backlight • Capacity 0 – 5g • Variance $\pm 0,001g$ • Auto calibration function • Auto off after 120 seconds • Replacement batteries supplied

109 €

Measure it DS

A new tracking force scale. Coming Soon!

49,90 €

Q up

- Automatic tonearm lifter for manual turntables • Lifts tonearm, when it moves to the end of a record • Extends stylus life • Suits nearly all tonearms and manual turntables • Includes three stackable platforms for turntables with thick platters • Adjustable trigger sensitivity • No AC or battery power needed • Easy to mount, no additional tools necessary

59 €

VTA it

With the Pro-Ject VTA it, the vertical tracking angle of the tonearm can be adjusted. You can then use upgrade platters, mats and cartridges. VTA it is compatible with Debut I-III, Debut Carbon, Debut Carbon EVO, Essential I-III (only in the standard configurations). A Philips # 1 screwdriver & 5.5 mm nut driver wrench are required for installation.

19,90 €

 Difficulty Expert

 Installation Time 20 min

Brush it

- Carbon-fibre brush for record cleaning

14.90 €

Spin-Clean

- Record Washer System • Clean records sound better and help to protect the stylus from dust • Spin Clean is suitable for all kinds of records: LP's, 45's, 78's

Spin Clean Record Washer System MKII:

- Washer basin and lid
- Washer fluid 4oz
- One pair brushes MKII
- One pair rollers MKII
- Two washable drying cloths

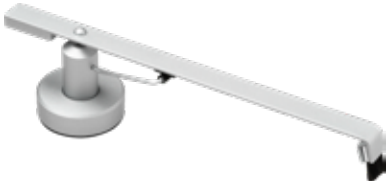

99 €

Spin Clean Record Washer System MKII Package LE:

- Translucent washer basin and lid
- Washer fluid 4oz
- Washer fluid 32oz
- Two pair brushes MKII
- One pair rollers MKII
- Seven washable drying cloths

199 €

Sweep it E

- Record broom • Gently cleans your vinyl while playing • Heavy weight stand for secure standing • Uni-pivot design • Brush made of natural hair

99 €

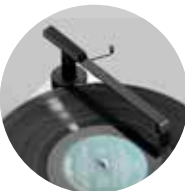

Sweep it S2

- Premium Record broom • Gently cleans your vinyl while playing • Heavy weight stand for secure standing • Neodymium magnet stabilization • Uni-pivot design • Brush made of natural hair • Height adjustable

129 €

VC-S 7" Kit

- Optimized cleaning efficiency for 7" records • 2 different versions suitable for alu & synthetic flange assembly versions of VC • Vacuum arm for 7" records including short adhesive velvet strips • Clamp for 7" records (standard clamp will not fit) • Wash it vinyl cleaning concentrate (100ml bottle)

119 €

VC-E2

- Improved cabinet design • magnetic clamp for quicker cleaning • improved vacuum steam outlet • self-adhesive arm strip for better cleaning • 5 mm aluminium composite panels • Superfast & superstrong cleaning • Removes cleaning fluid (Wash it) residue free • 0,5l tank for vacuumed cleaning liquid • Completely dry record within 2 rotations • Eco friendly, non-alcoholic, premixed new cleaning fluid Wash it 2 • Removes static load of vinyl records • Clamp seals record label from cleaning fluid

450 €

VC-S3

- Improved cabinet design • magnetic clamp for quick cleaning • silent mode operation • motor speed regulation • 1300W vacuum with power regulation • self-adhesive arm strip for better cleaning • 5 mm aluminium composite panels • Superfast & superstrong cleaning • Superior motor for long lifetime • Big 2,5l tank for vacuumed cleaning liquid • Completely dry record within 2 rotations • Removes static load of vinyl records • Removes cleaning fluid (Wash it) residue free • Eco friendly, non-alcoholic, premixed new cleaning fluid Wash it 2 • High-end build-quality

799 €

Wash it 2

• Ready to use • Wash it cleans vinyl records & shellacs • Wash it contains only high-purity components • Eco-friendly - Non-toxic - Non-flammable • Dissolves a wide range of impurities including fat/grease • For very dirty records repeat the cleaning process • Evaporates quickly and leaves zero residues • Optimum application temperature 20 - 40 degrees • Optimum storage temperature 10 - 25 degrees

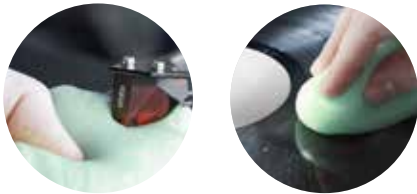

250 ml 7,90 €
500 ml 10,90 €
1000 ml 15,90 €

Vinyl Clean

• Dry-cleaning for record and stylus • Perfectly cleans in-depth, removes dust and debris from record grooves and stylus.

12,90 €

Hear it One

- Smart, audiophile & comfortable
- Classic design
- Adjustable leather-coated headband
- Soft leather ear cushions (memory foam)
- Textile coated cable made from oxygen-free copper (HP-OFC)
- Gold plated 3.5mm jack plug
- High gloss & metal finish

99 €

Hear it Two

- Super loud – super light – super cool (107 dB)
- Lightweight design (77 g)
- adjustable ear-cushion position
- flat transport possible
- high wear comfort
- 3.5 mm jack plug
- 3 colour options: red, white, black

   59,90 €

Dustcovers

- Clear acrylic dustcover for turntables:

Model	Dimensions	Price
Cover it E	471 x 103 x 331 mm	99 €
Cover it RPM 1/3	436 x 133 x 386 mm	99 €
Cover it RPM 5/9	498 x 179 x 348 mm	169 €
Cover it 1	525 x 290 x 425 mm	279 €
Cover it 2.1	460 x 250 x 365 mm	279 €

Wallmount it Rack 5/4

Wall mount equipment rack

Size 530 × 1000 × 406 mm	Space between wall and shelf for cables 50 mm
Weight 12.6 kg	Maximum weight load per shelf 50 kg
Shelf Surface 498 × 355 mm	
Maximum height between shelves 167 mm	
Colour Options <input checked="" type="radio"/> <input type="radio"/> Black or White: 599 €	

Wallmount it

- Resonance-free wall mount for turntables & Hifi
- WMI wall mounts use rigid steel frame construction
- Height-adjustable spikes to level the board

Model	Dimensions	Colors	Max Load	Price
Wallmount it 1	460 x 355mm	black	30kg	229 €
Wallmount it 2	460 x 355mm	black & white	30kg	249 €
Wallmount it 3	520 x 450mm	black	30kg	449 €
Wallmount it 5	460 x 400mm	black & walnut	30kg	329 €

Acrylic Platters

Acryl it is made from acrylic with satinised surface and brings a more liquid sound that leaves no space for platter resonances. Acryl it is able to improve overall performance significantly!

Model	Suitable for	Price
Acryl it E	Elemental, Essential III, Primary E, Juke Box E	129 €
Acryl it	Debut Line, 1Xpression	129 €
Acryl it RPM 1 Carbon	RPM 1 Carbon	249 €
Acryl it RPM 3 Carbon	RPM 3 Carbon	299 €

Aluminium Sub Platters

The diamond cut aluminium sub-platter can be machined to much improved and lower tolerances and will be a substantial upgrade to regular sub-platters. It adds more mass to the entire platter and drive system, resulting in additional damping of noise and unwanted resonances. The improved tolerances during production will increase overall speed accuracy.

Model	Price
Debut Alu Sub Platter	149 €
The Classic EVO Alu Sub Platter	149 €
X1/X2 Alu Sub Platter	149 €

Ground it

Acryl it is made from acrylic with satinised surface and brings a more liquid sound that leaves no space for platter resonances. Acryl it is able to improve overall performance significantly!

Model	Dimensions	Weight	Price
Ground it E	500 x 65 (45) x 400 mm incl spikes (without spikes)	11,6 kg	159 €
Ground it deluxe 1	500 x 65 (45)x 400 mm incl spikes (without spikes)	11,6 kg	449 €
Ground it deluxe 2	435 x 65 (45)x 340 mm incl. spikes (without spikes)	8,5 kg	399 €
Ground it deluxe 3	500 x 65 (45) x 400 mm incl. feet (without feet)	13,5 kg	799 €
Ground it Carbon	500 x 65 (45) x 400 mm incl spikes (without spikes)	14,5 kg	1.299 €

Clamp it

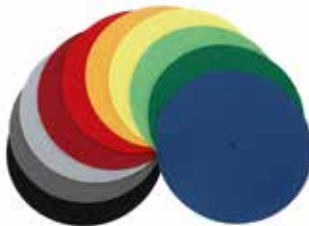

- Sound improvement for all turntables
- Reduces unwanted resonances while playback
- Fast and easy mounting
- Fine-adjustment of tightening force
- Full metal accessory with leather coating
- Diamond cut finish

99 €

Slip Mats

Soundtuning with turntable mat! Every material has its own character. Experiment and descide what you prefer!

Model & material	Price
Felt Mat in different colours	9,90 €
Cork it	25 €
Cork & Rubber it 1mm	49,90 €
Cork & Rubber it 3mm	65 €
Leather it	49 €

Record Puck

Record pucks use weight to secure a record against the turntable. This improves the sound performance of the turntable in terms of timing and sound depth.

Model	Weight	Colour	Price
Record Puck E	190gr	Silver or Black	29,90 €
Record Puck PRO	190gr	Nickel	49,90 €
Record Puck	800gr	Brass	89 €
Record Puck Signature	400gr	Aluminium	129 €

Damp it

- Special absorber feet for effective decoupling
- Made from hightech TPE (thermoplastic elastomers)
- Prevents transmission of mechanical vibration
- Optimised to absorb frequencies from 20-500 Hz
- Especially for bookshelf speakers, Disc players, turntables, tube amplifiers and more
- Extremely cost-effective sound upgrade
- Available single (bulk) or package containing 4 pieces

4 pieces / 25 €

Signature Headshells

- Fits all tonearms with SME mounting standard
- 1/2 inch cartridge mount
- 3 different headshell materials: Alu, Carbon, Oak
- High conductivity OFC headshell cables included
- High rigidity & low mass
- Low resonance construction
- Non magnetic
- Azimuth adjustment with screw on side
- Built-in fingerlift

black: 69€
wood: 129 €
carbon: 149 €
aluminium: 169 €

High Power it

- Proper grounding dramatically reduces grounding hum of „floating mass“ systems/amplifiers
- 3 pin DC power supply with ground connection
- Delivers cleaner current and more power to all Pro-Ject turntables
- Input: 100-240V AC, 1.0A, 50-60Hz
- Output: +15V DC, 2.0A
- Output power: 30W max.
- Diameter DC plug: 2.1mm
- Dimensions: 85 x 47 x 33 mm
- Weight: 180 g (w/o power cord)

34,90 €

Signature Tonearm 12" (including wooden box)

Pick it 2M Silver

• Moving Magnet principle • Coil windings made from pure silver to achieve higher quality and more dynamic playback compared with conventional MM cartridges • Suitable for low to medium tonearm masses • 1/2 inch mounting standard • High trackability • 2M Silver should be connected to phono MM inputs • As with most MM cartridges, stylus may be exchanged

199 €

Pick it 25A

• Moving Magnet principle • Coil windings made from pure silver to achieve higher quality and more dynamic playback compared with conventional MM cartridges • Suitable for low to medium tonearm masses • 1/2 inch mounting standard • High trackability • Pick it 25A should be connected to phono MM inputs • As with most MM cartridges, stylus can be exchanged

99 €

Pick it S2 MM

• Moving Magnet principle • Split pole pins enables frequency responses that compares very well to MC cartridges • Suitable for low to medium tonearm masses • 1/2 inch mounting standard • High trackability • Pick it S2 MM should be connected to phono MM inputs • As with most MM cartridges, stylus may be exchanged

119 €

Pick it S2 C

• Moving Magnet principle • Simple and fast setup • High output voltage Ideal for medium weight tonearms (15-20g) • Very dynamic • Suitable for MM phono stages • Needle can be exchanged if needed • Robust Polycarbonate body

129 €

Pick it PRO

• Moving Magnet principle • Simple and fast setup • High output voltage Ideal for medium weight tonearms (15-20g) • Very dynamic • Suitable for MM phono stages • Needle can be exchanged if needed • Robust Polycarbonate body
