HOME USE

WE SPEAK SOUND

The name ArtSound speaks for itself: we provide the art of sound, as this has been our passion, our conviction ever since the 1990's: designing speakers and multi-room systems, with a not necessarily unaffordable quality.

BELGIAN

Artsound is **Belgian** and we are proud of it. We design products and services tailored to your situation, with an eye for detail and using our business knowledge. At home, outdoors, at work, in the factory, sound from modest to loud, without distortion.

EASY

ArtSound is **easy**. The ArtSound-designs are not garish, but they are smart – less is more, you know, whether or not customised, for every development, ease of use comes first, for the installation as well as in terms of operation.

LISTENING

At ArtSound we initially pay attention. We **listen** carefully to what you have to say, your needs. And we take a look at your space. Only this way, we can propose a customised solution that adds music to your private and/or professional life.

ACCESSIBLE

ArtSound is **accessible**, at all levels. We are affordable: we do not charge you to share the costs of expensive marketing. And our range offers a solution for virtually any situation: recessed or surface mounted, waterproof, active, passive We have all sorts. Should the solution not yet exist, we will develop it.

Our mission: your music always and everywhere ArtSound ensures that you can carry your music around always and everywhere: in the pocket of your trousers, on your smartphone, via an all-in app, through the speakers that we produce for you. You can stream your music wherever and whenever you like to.

MULTIROOM MULTIROOM

MUSIC IS A HOUSE WITH MANY ROOMS

Music is an essential part of our lives, of our home. ArtSound presents solutions tailored to anyone's music, of any genre. A discreet box for your favourite radio station, a simple volume button on the wall, a device with volume controls for 6 speaker pairs, a fully integrated multiroom concept ... with us, sound is king.

MUSIC EVERYWHERE IN YOUR HOME !

Multiroom, or music in every room. At home, in the office, in any room of your home... it's up to you. You approach Multiroom in a central and integrated way – using a single app – or easily and decentral – in case each zone is standalone. We developed the two options for you already:

Easy or decentral

Here, each zone gets its own amplifier which you combine with speakers of your choice. All zones operate independently from each other.

Integrated or central

Also here, each zone gets its own amplifier or active speaker, but in this case they are interconnected. You can control everything (choice of music as well as zone) from one central point, by use of an app. Our integrated devices are compatible and surf along on your home network. It makes them flexible (e.g. you can group them to your heart's content) and centrally controllable via the app. This app will be your window to the world of music out there: it allows radio stations and streaming services to reach you.

Our offer starts from the SMART HYDE, a compact streaming amplifier. We offer this separately and in bundles: one box will serve one zone, containing the smartest amp every time + the right speakers.

You can make existing installations ready for the future again using the Smart Stream and SMART ZONE 4. So, you upgrade what you have, using access to the streaming services and operation, via the app.

As a passionate manufacturer of speakers, we simply had to include a built-in active streaming speaker in our range, behold the SMART IN.

Handy!

The bottom of each device shows little icons that help you operate the device.

SMART HYDE

This SMART HYDE is a multiroom amplifier that makes use of your home network. Despite its small size, it fills the large world it gives you access to, via internet radio, Spotify, Bluetooth, Deezer, Airplay etc. Do you have other devices in your home? No problem, that is what the AUX-in can be used for. Its powerful and flawless sound is owed to its digital amplifier. No wonder that you want more of them in your home. You can all connect them to one network and control them from your lazy chair, using your tablet or smartphone.

description	multiroom amplifier
output capacity	class D, 2 x 50W RMS (4Ω)
impedance	4 - 8Ω
THD	0,03% / 1 kHz 1W
network	LAN 10/100Mbit ; WiFi 802.11b/g/n
Bluetooth	5.0
audio input	stereo RCA, optical, microUSB (DAC), USB (mass storage)
audio output	stereo RCA + subwoofer
streaming protocol	Spotify Connect, AirPlay, DLNA, UPnP, Qplay
online music	Internet Radio, Spotify, Qobuz, Napster, Amazon Music, iHeartRadio, vTuner, SoundMachine, RadioParadise, Calm Radio, QQ Music, QQ FM
local music	mobile device, NAS storage, USB disk drive
multizone function	AirPlay
tone control	volume, treble, bass
functions	alarm function / sleep timer
control	4STREAM app (iOS + Android)
power supply	110V - 240V
dim. (h x w x d)	40 x 146 x 158mm
weight	0,54kg

A compact multi-amplifier, your window to the world, a party animal if you will, good for filling one or all rooms.

AVAILABLE in Pack S

SMART EVO

With the SMART EVO, you can easily create your home audio system.

The ArtSound SMART EVO is a compact streaming multi-room amplifier with a modern design. It connects to your Wi-Fi or your wired internet, and features a wide selection of analogue and digital inputs. Like a phono input to connect your record player, and an HDMI input for TV sound. You can control the SMART EVO with the remote control or with our free application. Moreover, the built-in OLED screen on the SMART EVO gives you all the information you need. No wonder that you want more of them in your home. You can all connect them to one big network.

description	multiroom amplifier

SMART ZONE 4 AMP

The SMART ZONE 4 AMP is a streaming amplifier for 4 zones. For each zone, you get to choose the music source: internet radio, Spotify, Deezer, Tidal, Airplay ... let yourself go. Want to plug in additional external sources? Plenty of inputs and outputs to choose from! And if 4 zones aren't enough, you can also combine several SMART ZONE 4 AMPs or expand with other devices from the ArtSound Smart family. You see, everything is there to fill your whole house with music. You control the SMART ZONE 4 AMP with the super handy app on your smartphone or tablet. So, connect your speakers and enjoy!

The SMART ZONE 4 AMP has all the juice you need to power your speakers.

description	streaming amplifier for 4 zones - class D
output capacity	2 x 60W RMS (8Ω), 2 x 105W RMS (4Ω)
network	LAN 10/100Mbit + passthrough
audio input	stereo RCA, optical, coaxial, USB (mass storage)
audio output	stereo RCA, coaxial
streaming protocol	Spotify Connect, AirPlay, DLNA, UPnP, Qplay
online music	Internet Radio, Spotify, Qobuz, Napster, Amazon Music, iHeartRadio, vTuner, SoundMachine, RadioParadise, Calm Radio, QQ Music, QQ FM
local music	mobile device, NAS storage, USB disk drive
multizone function	AirPlay
tone control	volume, treble, bass
functions	alarm function / sleep timer
control	4STREAM app (iOS + Android) 12V Master Trigger-output
power supply	110V - 240V
dim. (h x w x d)	90 x 430 x 300mm
weight	9kg

SMART ZONE 4

The SMART ZONE 4 offers not just 1, but 4 ways to fill your house with music.

The SMART ZONE 4 is a streaming pre-amplifier with 4 zones. You are to choose the music source for each zone: internet radio, Spotify, Airplay etc. give it a go. Would you like to connect additional external sources? There are plenty of inputs and outputs! And should 4 zones not be enough, you can also combine two SMART ZONE 4s or expand one of them by use of SMART HYDE-devices. For maximum flexibility, the SMART ZONE 4 leaves it up to you to see to amplification. (Our tips: 2x an ArtSound PRL1204 or an ArtSound AMP1250.) If you prefer 100% focus on the music, then you can integrate the SMART ZONE 4 with the included rack-earplugs. You obviously control it with your tablet or smartphone.

description	streaming pre-amplifier for 4 individual zones

functions	alarm function / sleep timer
control	4STREAM app (iOS + Android) 12V Master Trigger-output trigger-output in each zone
power supply	110V - 240V
dim. (h x w x d)	45 x 430 x 200mm
weight	2,40kg

SMART STREAM

The SMART STREAM is a preamplifier that expands your existing music system into the world of streaming. Welcome internet radio, Spotify, Tidal, Qobuz, bluetooth, AirPlay and much more!
 No more FM radio? Poor DAB reception? The SMART STREAM is the solution. With the 4STREAM app, you get to choose your favourites among all radio stations around the world. You get the best possible sound quality for your wireless or wired internet connection.
 In addition to the built-in sources, the SMART STREAM also has a whole bunch of inputs and outputs for all your other devices (TV, record player, laptop). The SMART STREAM is happy to be used alongside the other members of our Smart family: the SMART HYDE and SMART ZONE 4 and extensions. You can turn it into one big multiroom system.

description	streaming pre-amplifier

power supply	12V/1A DC
dim. (h x w x d)	41 x 148 x 120mm
weight	0,37kg

With the SMART STREAM, you can breathe new life into your "old" hi-fi. Hello world of streaming music!

ART1.1

Minimal visibility, maximum sound experience.

The ART1.1, that is literally one-on-one: an amplifier for one zone and for one source. You can decide the zone yourself. We determined the source: Bluetooth.

This gem produces an amazing sound. Together with your built-in speaker, it forms the ideal combination to fill each space (toilet, kitchen, bathroom etc.) with enough sound. You can make the connection in a blink of an eye and wirelessly stream the playlist of your dreams. No hassle with Wi-Fi and registering. Straight forward. In the room you desire.

Do you like things clean and zen? Thanks to its compact measurements, you can discretely conceal the ART1.1. You already get it: a pure approach for a pure sound. Of course, with the trusted ArtSound-quality label.

SVC4.2

You can connect the SVC4.2 to four pairs of loudspeakers to one amplifier output. The device ensures that your amplifier will not be subjected to excessive load as a result. The practical dials on the front panel allow you to adjust the volume for each pair of loudspeakers separately. This allows you to create up to four different volume zones. The style and finish of the SVC4.2 are also in perfect harmony with your hi-fi system. The rubber touch feels pleasant and has a luxurious appearance.

description	volume control for 4 sets of loudspeakers
max. power	2 x 80W (input level)
loudspeaker output impedance	8Ω
amplifier input impedance	4Ω
dim. (h x w x d)	52 x 314 x 240mm
weight	1,93kg
colour	black

Do you own a classic amplifier? And you still wish to operate in different zones? Then the SVC4.2 might just be your solution, while you will give your amplifier a second life.

SVC6.2

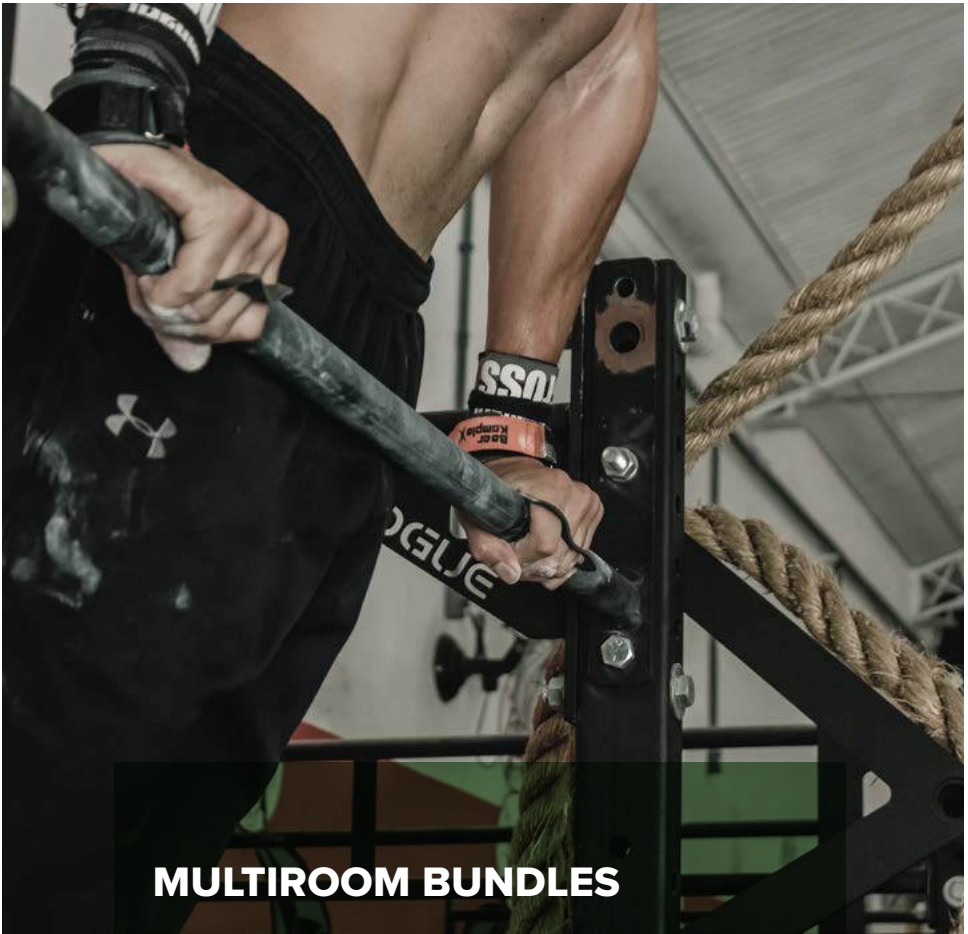

Do you wish to enhance all the offices or your practice with music? Then let the SVC6.2 be your soulmate. It divides your preferred stations across six different zones, each with their own level of volume.

You can connect the SVC6.2 to six pairs of loudspeakers to one amplifier output. The device ensures that your amplifier will not be subjected to excessive load as a result. The practical dials on the front panel allow you to adjust the volume for each pair of loudspeakers separately. This allows you to create up to six different volume zones. The style and finish of the SVC6.2 are also in perfect harmony with your hi-fi system. The rubber touch feels pleasant and has a luxurious appearance.

MULTIROOM BUNDLES

MUSIC IN EVERY ROOM!

Music is part of our lives more than ever, wherever we find ourselves. Using these all-in units, as from today you will have a ready-to-use solution to fill every room with music. A toilet, a seating corner, the patio or bathroom, your desk, no spot will be able to escape. Every unit is a musical duet between the amplifier and the appropriate speakers.

The ArtSound bundles, they are so smart and we are so proud of them!

SMART HYDE - UNI30

multiroom-amplifier + 2 design onwall loudspeakers

Although the SMART HYDE is tiny, it fills the large world it gives you access to, via internet radio, Spotify, Bluetooth, Airplay ... Thanks to the network function and the app, you can install several of them in your home. In combination with our UNI30's, you will have an all-round bundle. Despite its (compact) measurements, the UNI30 generates great performance. Speakers don't need to stand out, but their sound does! The SMART HYDE should ideally always be installed inside.

- living room
- kitchen
- practice
- meeting room

SMARTHYDE

ART1.1 - FL30

minimalist amplifier + 2 ultra-small inwall loudspeakers

The ART1.1, that is one-on-one, literally. An amplifier for a single zone and a single source. You can select the zone yourself, we have already determined the source: Bluetooth. This gem produces an amazing sound. The combination with the FL30s is ideal to provide every small space with sufficient tone. It takes just seconds to make the connection and wirelessly stream the playlist of your dreams.

INWALL INWALL LOUDSPEAKERS LOUDSPEAKERS

IMPLEMENTED FOR AN OPTIMAL EFFECT

It's an unwritten rule which hi-fi enthusiasts are only too keen to endorse: loudspeakers should be heard and not seen. Whilst giving clear and faithful sound reproduction without distortion, they should do so without stepping into the limelight themselves. It's with this philosophy in mind that ArtSound designs its inwall speakers. The discrete design and advanced technology serve just one purpose: listening enjoyment.

📍 Christeys, Ghent

INTIIMI

Intiimi are the ultimate built-in speakers that we produced. The entire range is structured exclusively with premium quality components. From the sturdy cross-over to the drivers with titanium coating, from the very sleek casing to the gilded speaker terminals. Nothing was left to chance. This is where all of our knowledge and passion gets combined. The optional flush mount ensures that the Intiimi-speakers are flawlessly in line with your ceiling.

Marvel.

RO2040

With an almost frameless grill of 1 millimetre and a thickness of just under 5 millimetres, this loudspeaker gives short shrift to modern-day standards. The titanium driver with neodymium magnet and patented® suspension allows you to point it in any desired direction. The Intiimi series purifies the signal from the amplifier via an advanced separation filter and a correction filter. The front plate and basket are moulded from one piece which helps reduce resonance. The RO2040 is very compact, but holds its own in every high-end kitchen or cosy living room.

- ① swivel tweeter in an acoustic shell
- ② manual treble control

The perfect high-end speaker for architectural spaces, in your home or at the office.

DIMENSIONS

HAPPI

WATER-RESISTANT AND MINIMALISTIC

Happi is a Finnish word which means 'open' and 'oxygen'. Their sleek design is characterised by a wafer-thin chassis and built-in magnets under the grill. The special filter, woofer and (swivel) tweeter provide a pure, warm sound. Both its interior and exterior are robust enough to resist a splash or two of water.

HPRO525

Treat yourself to some oxygen. Happi is a Finnish word which means open, oxygen. This HPRO525 makes the ideal partner. It creates the perfect mood for letting off steam, both literally and metaphorically. Thanks to the aluminium woofer and the swivel tweeter, it carries every detail a long distance.

- ① aluminium woofer for higher output
- ② aluminium grill with water-resistant magnetic system
- ③ swivel tweeter

Steam in your bathroom, both literally and metaphorically: the HPRO525 does the business!

black grill (option)

HPRO650

Happi is a Finnish word which means open, oxygen. It characterises the entire range since Happi transforms ultimate comfort in masterly design. Thanks to some ingenious remodelling, this frameless speaker with its ultra-sleek grill can be installed effortlessly in your kitchen, living room, patio or bathroom. The HPRO650 has a 6.5" driver with a separate swivel tweeter sending every vibration over a long distance, whether indoors or outdoors.

- ① aluminium woofer for higher output
- ② aluminium grill with water-resistant magnetic system
- ③ swivel tweeter

Moisture and acoustics, two enemies of good sound on the patio? Not if you have the HPRO650.

DIMENSIONS

FLAT

Flat is groundbreaking. It is the first of a series of built-in speakers that makes minimalist design affordable. Its price level is unprecedented. You can access the circle of premium speakers without having to dig deep into your pockets. You can easily refer to FLAT as a gamechanger. A correct price for a correct sound with a posh appearance.

FL30

The essence of this speaker is that it really is 'extra small.' It has tiny dimensions and a grill with a miniscule frame (1mm!). You can't get much flatter than this, with the surprisingly clear sound as an added bonus.

The small FL30 is ideal for smaller spaces such as waiting rooms, the kitchen, the toilet ...

The FL101 is a real hit. It leaves no space untouched: the corridor, waiting room, living room, kitchen, ... you can even paint it over in your favourite colour.

FL101BT

With this active loudspeaker set, every room can enjoy its very own music. The FL101BT conceals a built-in amplifier to which any source can be connected via AUX IN. Or would you prefer wireless? No problem at all – Bluetooth® allows you to connect in an instant. The loudspeaker has a sleek and timeless design. With a frame of just 1mm and an ultra-flat grill, it breaks all the records.

Serve your customers music that fits seamlessly into the concept of your business. This can be done wirelessly, via smartphone or tablet.

One of the most popular speakers thanks to the power of the sound and the modest mounting dimensions.

FL502BT SINGLE

This active built-in speaker hides an amplifier with the latest Bluetooth version and links to your music in the blink of an eye. Aside from that it also still has an AUX-entry, suitable for every source. Because we want nothing less than the ultimate sound quality, we added the latest audio technology.

That is what you hear. What this speaker shows is a sleek and timeless design, with a frame of no more than 1 mm and an ultra-smooth grille.

The speaker is very easy to install with the self-tightening clamps. The grille is magnetic and will be connected in one click.

The FL502BT Single is also available as a set with a passive speaker: the FL502BT SET.

In your bedroom, kitchen, office, practice ... you'll have the perfect soundtrack anywhere.

Want to give a party that doesn't attract too much attention? The FL620 lets you feel the vibrations!

BASIC

The Basic-series had best be summarised under the denominator: no-nonsense. Plain, great sound, straightforward, no technological masterpiece, though fine quality. Simple, affordable and available in all sizes.

MD30

The MD30 is not much larger than an average spotlight, but incorporates an exceptionally warm sound generator. This makes it particularly suited for use in modern or renovated buildings where design and architecture are high on the agenda.

This MD30 doesn't need a lot of room to provide warm background sound.

MDC401

The MDC401 is part of the Basic series which stands out thanks to its excellent value-for-money. A no-bones-about-it inwall loudspeaker. A straightforward built-in speaker that, thanks to its compact diameter, visually blends in with all kinds of lighting.

The MDC401 combines a very limited diameter with the tight reproduction of your favorite tune.

MDC501

The MDC501 is one of the most sought-after loudspeakers. Its secret? A warm, solid sound at a competitive price. Feel free to call this our allrounder.

The MDC501 is a common sight in shops, restaurants, retail chains, but also countless private homes.

WATERPROOF

COME RAIN OR SHINE

However extreme the humidity, the Waterproof loudspeaker doesn't shirk its responsibilities. What's more, temperatures have no effect on this series of speakers. They are real mood creators, by the pool or outdoors, and able to disseminate sounds far and wide.

MDC6

These waterproof models are hermetically sealed at the back. The woofer and tweeter are also manufactured from waterproof materials. To be used in damp areas such as steam rooms, gardens or places exposed to direct rain. For living rooms, offices, shops... we would like to refer to the FLAT and HAPPI-series.

The MDC6 is a 100%-waterproof model, suitable for extreme applications, both indoors and outdoors.

INWALL SOLUTIONS

At ArstSound we want our customers to be able to enjoy our loudspeakers as quickly and as effectively as possible. For that reason we have a number of handy kits to help install our inwall speakers in next to no time. Even in more demanding situations. And if necessary, protected against dust and damp.

Precast concrete kit

The CKIT allows you to create an acoustic space in vaults or concrete structures. The 'smart' solution for acoustically unfriendly surroundings. This kit is installed before you cast the concrete and guarantees a smooth sound in any concrete structure. The CKIT is always packed per unit.

CKIT250

composition	ABS + mineral fibre panel
dimensions (Ø)	280 x 110mm
max. cut-out	250 mm

Acoustic kit

These kits, made from water-repellent MDF are always packed per unit. These are easy to install and acoustic-absorbent. The kits help eliminate annoying resonations which may occur at the rear of the loudspeaker when you install it in a wall or ceiling.

ONWALL SPEAKERS

YOU DON'T NEED TO LOOK IMPRESSIVE TO SOUND CONVINCING

For that reason we specialise in the development of compact loudspeakers. Nothing bombastic. Instead style with power. We came up with eye-catching designs for trendy interiors, but also with timeless gems which can more than hold their own in any surroundings, delivering excellent audio quality at an affordable price.

SONAR

CONICAL QUALITY

ArtSound returns to the roots with the Sonar: lasting quality. Tone colour in a conical casing. Absorbs unpleasant vibrations and the wood ensures an additionally warm timbre.

The Sonar-series also includes woofers with a rubber suspension. Anything for the right tone.

AS150

An exceptional design in a high-quality cabinet. In combination with the fibreglass woofer in a wooden frame, the special tweeter is absolutely unique. The warm colour is a dead giveaway for the sound: deep basses and high-quality mid-range, enhanced by a strong wave of high tones. Perfect for every modern interior. The AS150 produces up to 100W without any distortion.

The AS150 doesn't need a lot of room to fill a room with noise. It can also serve as a component in a true home cinema set.

UNIVERSALS

All our experience bound up into every detail of your loudspeaker: these are the Universals. The sleek front panel, in combination with their rounded angles, give an all-round quality. Together with their unique bracket, enabling all kinds of alignment, they can adapt to any decor. And their patented drivers can take on any musical preference. Simply put: universal deployment with an eye for every detail.

UNI20

This loudspeaker has a neutral design, with a strong housing. It generates great performance output as a result, in spite of its compact dimensions. The plug-in screw connection allows for easy mounting. This loudspeaker is suitable for use in smaller spaces, such as a corridor, small kitchen, toilet, etc...

The UNI20 may be very compact, yet generates a warm sound thanks to its two-way system.

OUTDOOR SPEAKERS

Our outdoor speakers are very popular, thanks to the clever shape. Each outdoor model has a specific size and was designed to produce its own, yet always powerful and warm tone colour.

ASW45.2

Maxi-waterproof in a mini package? As the smallest of the bunch, that's what the ASW45.2 is all about.

Designed with the latest acoustic techniques, it is stunningly powerful yet discreet, thanks to its small size. The unique deflected profile provides clear and warm sound performance. Thanks to the indoor - outdoor switch button, this speaker ensures your musical enjoyment, both outdoors and indoors. In addition, the bass reflex may be hermetically sealed using the tube supplied.

The ASW45.2 is a regular on every local terrace. Discreet, part of the furniture, but loud when you want it to be.

ASW550

The ASW550 is among the best in the ArtSound waterproof series. This high-end waterproof speaker is suitable for substantial areas indoors or outdoors. The patented 5,25" driver allows every bass tone to fill the space, whereas the tweeter ensures immaculate reproduction of every detail. Inside, the ArtSound filter ensures the perfect balance of the sound.

① This patented bracket allows for perfect alignment in every space.

The ASW550 easily fills every environment or space. This waterproof speaker is also highly ground-breaking.

ASW800

The ASW800 is our showpiece in the waterproof series. This high-end waterproof speaker is suitable for indoor or outdoor use, for vast areas. The patented 8" driver ensures every bass sound to pump, while the tweeter won't miss out on any detail. The ArtSound filter inside ensures perfect balance of sound.

① This patented bracket allows for perfect alignment in every space.

The ASW800 has no limits. A huge terrace or robust swimming pond, it will easily fill every environment or space. Get to know the Rolls-Royce among the waterproof speakers.

ROCK

Our rock in the surf. You can hear it, but you can't see it. The design of the Rock blends seamlessly into any garden. Moreover, it is resistant to all weather conditions. Thanks to the special bass reflex, you can enjoy powerful deep bass and it provides optimum dispersion over a large area.

The rock resists every whim of the weather gods. It blends easily into tall grasses, flower arrangements and lush plants. Only its powerful sound betrays its presence.

KURV

The Kurv is all about distinction through simplicity. The organic design houses the latest technology. The 5,25" driver with coaxial tweeter is housed in a water-repellent, sloping jacket. You connect the Kurv to many an amplifier and bring it to life. For everyone who wants to be visually and audibly spoiled by a true icon. The Kurv has both a low impedance as well as a 100V connection.

Declared a style icon, this speaker also musically brightens up many a terrace.

SUBWOOFER

A subwoofer is like a fireplace in a living room; it guarantees warmth. A subwoofer adds to the sound spectrum of smaller speakers, making the musical and cinematic experience more powerful. You can adjust the sound to any space using the rotary buttons.

ASA80.2

Even a subwoofer can be discreet. With the ASA80.2, ArtSound has packed an active subwoofer into a very compact cube design. The rounded corners even give it a sympathetic look, but make no mistake, it houses 200W and fills up any room effortlessly. Mind-boggling vibrations are guaranteed.

The ASA80.2, here in a large living room, knows no bounds. 75 m² is no problem at all.

HEADPHONES & EARBUDS

On your head, in your ears, in your bag or simply around your neck. Not only do the ArtSound-headphones provide music to your mood, they also offer an image with your personality. Select the model that best fits you, in the colour you desire. Show them who you are, by the way you listen. Anywhere.

BRAINWAVE01

The BRAINWAVE01 earbuds are earbuds packed with top technology. They ensure optimal wearing comfort and excellent sound quality. The built-in EQ and microphone guarantee a balanced sound that fully brings out the highs and lows. With the intuitive touch control, you can easily switch between your playlist and a phone call. You can barely feel these BRAINWAVE earbuds, they weigh almost nothing and they are water resistant. To make sure they fit every ear, we include custom ear tips. These earbuds give you up to 4 hours of autonomy and the stylish case is also your charger; good for up to 12 hours of wireless enjoyment!

BRAINWAVE03

Because better sound starts with better silence, these BRAINWAVE03 earbuds combine state-of-the-art noise cancelling technology and dual microphones with sophisticated EQ functionality. The result is that high and low ranges have never sounded so pure, as any disturbing noise is nicely filtered out. Switching between your playlist and a phone call is intuitive, thanks to touch control. These BRAINWAVE earbuds are comfortable and stable and they are water resistant. To make sure they fit every ear, we include different ear tips.

These earbuds give you up to 4 hours of autonomy and the stylish case is also your charger: good for up to 12 hours of wireless enjoyment!

Thanks to active noise cancelling, you can organise your workspace wherever you want.

BRAINWAVE04

With the BRAINWAVE04, the noise reduction is further refined with microphones both outside and inside the headphones. The highs and lows never sounded so pure, as every disturbing noise is neatly filtered out. Because better silence makes for better sound.

Switching between your playlist and a phone call is intuitive, thanks to the touch control. These BRAINWAVE04 earbuds are comfortable, sturdy and water-resistant. To make sure they fit every ear, we include customised ear tips.

These earbuds give you an autonomy of up to 6.5 hours and the stylish case is also your charger: good for up to 30 hours of wireless enjoyment!

BRAINWAVE05

The BRAINWAVE05 on-ear headphones give you wireless freedom and flawless sound quality. That so much technology can be contained within a weight of just 140g is unprecedented. Its built-in drivers generate a very clear, powerful and above all warm sound, both quiet and loud. You can easily control the volume of these wireless headphones using the very intuitive push buttons on the earcup, which also allow you to switch between music and phone. Another plus: the built-in microphone captures your voice in a crystal clear fashion. The headband on this BRAINWAVE is made of durable material that is so comfortable that you forget you're wearing it.

Thanks to its ergonomic design, the BRAINWAVE05 is barely noticeable and that's perfect, because you have other things on your mind.

BRAINWAVE07

These BRAINWAVE07 over-ear headphones produce stunning sound quality, thanks in part to their active noise cancelling with zero tolerance for interference. The dual microphone detects and neutralises any ambient noise without mercy. If you do want to hear the sounds of your surroundings, you can switch to conversation mode with just one click. For the design, the engineers perfectly took our anatomy into account. They chose durable materials with extra-soft ear cups that house all the controls. The BRAINWAVE07's ease of use allows you to enjoy crystal clear sound quality anytime, anywhere for up to 35 hours.

With BRAINWAVE07 you can create your own world anywhere, even when around others.

PORTABLE BLUETOOTH SPEAKERS

We are masters of good and powerful sound, even though we say so ourselves. This typical ArtSound-sound will be with you, every step of the way, wherever you go. Whether you like to listen to classical music or to a true crime podcast. Whatever you wish to hear, it is now possible anywhere, wherever you like. With the ArtSound Bluetooth speakers, every inch of this planet can be filled with listening pleasure.

PWR01

The PWR01 is a waterproof Bluetooth speaker that will knock you off your feet: that's how surprisingly full and deep the sound of this 'little one' is. It keeps high and low notes perfectly balanced. Thanks to its cylindrical design, the music sounds 'loud and clear' from all sides. The built-in LED lights add a visual experience. By the way, the PWR01 is sturdy and it can take some bad weather, because it is waterproof at level IPX7. And as if that isn't enough to convince you, it has a handsfree call button to your smartphone, TWS technology for wireless connection... this speaker has it all. Everything about it is premium quality. That makes the PWR01 time, gender and ageless.

Thanks to the carrying strap and the built-in 12-hour battery, you can take the PWR01 anywhere you go: to school, to the campsite, to festivals, to the beach, or to the garden behind your home ...

PWR05

The sturdy casing of the PWR05 makes you suspect the best at once. With no less than four drivers this fellow produces an amazing sound. It manages to perfectly combine a solid bass with a fine-tuned eye (and ear) for detail. In addition, this PWR05 is multi-functional. It can, for instance, charge your smartphone and you can connect other sources to it (aux-in). In case just one won't suffice, you can wirelessly connect it to a second source via the TWS-function. You just found your soulmate!

The PWR05 allows you to barge in any kitchen, shed, meeting room, pool house, camp site, festival, swimming pool, club house. A press of the volume button will cause immediate attention.

PWR09

The PWR09 is the portable speaker that combines power with finesse. With its powerful double woofers and light show it stimulates all the senses, even outdoors! You can take it with you wherever you go – that's what the solid handle is for – and use it anywhere, with or without a tripod. Play music via Bluetooth or connect a microphone. You will have the attention of your audience even before you can say 'test'. By the way, the party might go on until late: the double batteries will last all day. And as if that is not enough, you can establish a wireless connection between two of the PWR09. Mind-blowing fun!

No party is complete without PWR09!

PWR12

The PWR12 combines power with finesse. With its 1500 Watts, it will transform any venue into a presentation room or excellent party. Even outdoors, it will effortlessly address each of the senses. It is compatible with any musical instrument and with the microphone or via Bluetooth you can use it anywhere. Also it can easily be relocated. Feel like filling a festival area? Then bear in mind that it can be wirelessly connected to another copy. Mind-blowing fun!

The PWR12 is a genuine party animal. The robust housing ensures protection against any kind of dancing force. Multi-applicable thanks to its 1500 Watts and numerous connection options.

- The built-in equaliser allows you to adjust the tone to your personal preferences.
- The columns have a simple click system, so installation can be done within five minutes.

LIGHTBEATS L

Where's the party? Wherever you want it to be! With the Lightbeats L, you not only get a portable speaker, but also the latest LED technology. A deep bass grows from the passive radiator and the RGB control makes the light dance to the beat. Bluetooth and True Wireless connect invisibly and flawlessly with one or more copies. And thanks to the built-in battery, your smartphone and you will always be ready for a party. Let's dance the night away!

With the Lightbeats, you get a light show with every sound. Feel free to call it your portable disco!

LIGHTBALL

Should the Lightball be classified as a mood lighting with a speaker? Or as a Bluetooth speaker with mood lighting? Owning a Lightball, you have a tool that wirelessly pimps the music from your mobile in a blink of an eye. The Lightball colours your music. Even literally! The integrated LED-function provides the colour and intensity you desire, through RGB-operation. You wish for even more dynamic? Then activate the integrated sensors using the remote control. By adjusting the colours and brightness to your favourite tunes, a genuine discotheque is achieved.

The Lightball colours your day. Its sleek design is a feast for the eye and ear. Your ideal buddy during every outing!

RADIOS

YOUR RADIO. PERHAPS YOUR MOST PERSONAL FRIEND.

As a child on the back seat heading towards the South. Discovering your own taste in music, in your bedroom, as a teenager growing up. A quick coffee in the kitchen before you set off to work in the morning ... Your radio is always with you. At ArtSound we have radios that flawlessly fit every phase of your life, as well as every mood. Quietly, in the background, when necessary, loud and powerful when allowed. Your radio is your window to the world.

R8

So compact and still such perfect timbre, we bet you didn't expect that from this radio! How does the R8 do it? Well, with its wooden casing, built-in equaliser and subwoofer. And whether you use it for music, information or relaxation, with your R8 you will never have to choose between FM, DAB+ or internet radio.

Do you want to use it as an alarm clock? You can set it up in no time with the simple menu. The alarm function will wake you at the right time, with the tune of your choosing. Yes, even in case of a power outage (spoiler: it also has a battery!).

The R8, a radio on your wavelength!

With a practical remote control and Bluetooth ... You won't even have to leave your seat.

All of this with a sleek design, excellent sound and an easy to operate menu.

Connect the R99 to your amplifier and start listening!

PRODUCTS FOR
**PROFESSIONAL
USE**

TRUST US WITH
YOUR WORLD
AND WE WILL PUT
MUSIC INTO IT.

Our products for professional use share their DNA with all our products: not only are they functional, they are durable as well. Resistant against intensive use – which more often than not is 24/7 – in all kinds of circumstances.

In a large assembly hall of, for instance, a car factory or in the cold store of a meat processing plant; in a small dental practice or in a hospital with several wings, our products stand their ground. From background music, through passing messages, to an evacuation alarm, they work! Reliability is indispensable and therefore guaranteed.

In addition to the products themselves, we also offer support in all phases of developing a sound system. Discussing the plans, a visit on site, assisting the installer upon commissioning... we will be there!

Your professionalism is our professionalism!

Our speakers for professional use not only look different, they are also individually packaged and each has its specific application. They won't be in your living room, they will be in a factory hall, a workstation, on the high street ... all demanding environments. Some struggle with excessive dust, others with high spaces, still others Mother Nature rules. Precisely because a project often requires several units, we have combined all our experience into production processes aimed at cost savings. Without any compromise on quality and durability.

FL30T

The essence of this speaker is that it really is 'extra small.' This T-version is fitted with a transformer, allowing different units into one circuit. It has tiny dimensions and a grill with a miniscule frame (1mm!). You can't get much flatter than this, with the surprisingly clear sound as an added bonus.

The small FL30T is ideal for smaller spaces such as waiting rooms, shops, the toilet ...

FL101T

This built-in speaker is flatter and more invisible than any of its predecessors. This T-version is fitted with a transformer, allowing different units into one circuit. The frame has been reduced to just one millimetre, yet continues to score highly in terms of vibration absorption. The grille of the speaker is extremely finetuned and feels almost like silk. The sound is accurate, warm and carries a long way. A no-bones-about-it speaker.

black grill (option)

The FL101T is a real hit. It leaves no space untouched: the corridor, waiting room, office ... you can even paint it over in your favourite colour.

impedance	-
frequency range	80Hz -18 kHz
dimensions (Ø x d)	145mm
weight / piece	170 x 80mm
weight / piece	0,75kg
composition	ABS
colour	white
features	spring clip

MDT400-I

100V rounded inwall loudspeaker suitable for the reproduction of music as well as PA announcements. The MDT400-I comes with a metal frame and has a shallow inwall depth.

Thanks to its shallow inwall depth, the MDT400-I is the ideal partner for background music. Its style is discretion, like in this trendy restaurant.

TECHNICAL SPECIFICATIONS

range	<40m ²
system	full range driver
woofer	4" paper cone
tweeter	-
max power (100V)	1,5 - 3 - 6W
max power (8Ω)	-
sensitivity (1W / 1m)	92dB

features	spring clip

MDT500-P

In view of its dimensions, the MDT500-P is an extremely powerful inwall speaker with a maximum capacity of 30W. Its large 6" driver guarantees a warm sound.

This MDT500-P is common sight in shops, restaurants and chain stores. Thanks to its in-built bass reflex and the knob at the rear to regulate the wattage, this speaker has grown into a real allrounder.

TECHNICAL SPECIFICATIONS

range	<40m ²
system	full range driver
woofer	5" paper cone
tweeter	1.5" PEI

UNI30T

Universals. The name gives the game away: they can be used anywhere! Not only in terms of location, but sound too. Thanks to the timeless design, the Universals embodies a striking neutrality. On the other hand, with respect to performance, it's quite dominant: warm, detailed and with a wide reach thanks to ArtSound sound technology. This T-version is fitted with a transformer, allowing different units into one circuit. The unit is dust- and moisture-resistant. The plug-in screw terminal facilitates easy connection of the speaker cable.

UNI75

The UNI75 is a surface-mounted speaker from the Universals-series, but it distinguishes itself by its phenomenal capacity. The slender multiplex casing has a polyurethane-coating, a “jacket” that makes it immune for any attack from outside. Both a double 5” driver and a horn tweeter were fitted. It will push out any detail, without distortion. It can easily handle 380 Watts of power. The dB-pressure ensures a tremendous range. Combine it with the AS1000 subwoofer to create a top notch interplay.

- ① The bracket will ensure perfect alignment, vertically as well as horizontally.
- ② Thanks to the professional Speakon connector, you can easily interconnect multiple units.

① u-bracket

② Speakon connector

TECHNICAL SPECIFICATIONS

range	<200m ²
system	2-way
woofer	2 x 5” MF transducer
tweeter	1” horn tweeter

The UNI75 can be used in any space where sound is really relevant. Any hall will become a major dance venue! Any auditorium will be an ultimate place to listen.

MADE IN EUROPE

ASW55.2T

The ASW55.2T is the ideal partner for outdoor projects. It incorporates the newest acoustic technology and is amazingly powerful yet discreet. This T-version is fitted with a transformer, allowing different units into one circuit. The unique curved shape produces clear, warm sound performance. Thanks to the indoor-outdoor switch, this speaker provides pure musical enjoyment, outdoors as well as indoors. In addition, the bass reflex may be hermetically sealed using the tube supplied.

The ASW55.2T is excellently suitable to be used for any project. The 100V-technology allows you to easily connect terrasses, swimming pools etc.

ROCK T

Our rock in the surf. You can hear it, but you can't see it. The design of the ROCK T blends seamlessly into any garden. This T-version is fitted with a transformer, allowing different units into one circuit. Moreover, it is resistant to all weather conditions. Thanks to the special bass reflex, you can enjoy powerful deep bass and it provides optimum dispersion over a large area.

COLOURS grey / brown

bass reflex-casing for an even deeper sound

frost-free	yes
UV resistant	yes

The ROCK resists every whim of the weather gods. It blends easily into tall grasses, flower arrangements and lush plants. Only its powerful sound betrays its presence.

CLMN8

This column speaker sounds much broader than suspected by its design. Thanks to 8 integrated drivers it can handle any voice range, as well as any musical tone. The high dB-pressure ensures a broad range. A convenient switch allows you to switch it to 8 ohm as well as to 100 V projects. As such, not only its sound, but also the application opportunities are simply 'all round'. Good for any musical spicing of a presentation, in a church, the hall, etc. Available in a white or black aluminium enclosure.

The column speaker is quite discrete. It will blend in with any interior, both privately and professionally. Residentially as well in the public sector.

ASP60

You need many of these spherical speakers to ensure good dispersion of music (or call) in a room. It was developed specifically for this purpose. The shape guarantees a spreading up to 360°. This makes it suitable for public spaces, halls, corridors etc.

Highs and lows: neither are real friends for effective acoustics. Not a problem for the ASP60 though.

OSP500

Question: how do you fill a large space with the smallest number of speakers? Answer: with the OSP-500. The OSP-500 is a directional spherical speaker that does not send the sound waves directly downwards, but with a 360° dispersion. Moreover, the suspension is adjustable in length. The OSP is made of ABS plastic and is equipped with various connection options (Watt).

You don't need to be big to put in a strong performance. The OSP-500 proves this point here in this station. Yet another smart solution.

PSW525

This projector-speaker sounds just as courteously as it looks. The cylindrical body® was developed to be able to transfer the sound vibrations across an as great as possible distance. The sound vibrations are encapsulated in a bundle that is thrust, ensuring that ambient noises will not disrupt the message. This speaker is suitable for background music and/or functional sound (e.g. notices)

The PSW525 has a remarkably organic shape. Also the sound is very powerful, thanks to the 5,25" woofer, and it easily fills any (industrial) space.

AS1000

Every pro-audio lover will enthusiastically listen to what this subwoofer is capable of. A driver of no less than 15" is integrated. This will allow it to peak, up to 1400W.

The AS1000 is a passive subwoofer, designed for universal use, in big or small rooms, with either high or low volume. Its size reveals its power. Thanks to the bass reflex design you can always rely on maximum performance at low frequencies.

Together with the UNI75 or the UNI80, the AS1000 forms the perfect pair. This will turn any party room into a ballroom, any pub into a discotheque and any museum into an auditorium.

AMPLIFIERS

NO MUSIC WITHOUT AN AMPLIFIER.

Every speaker needs an amp. Together they form a unit, perfectly coordinated with each other. We, at ArtSound, always seek smart solutions. So, we do not do 100 models for 100 situations. We do versatile amplifiers that excel in flexibility. They are also incredibly easy to install and are user-friendly.

WHAT'S THE PURPOSE OF AMPLIFIERS EXACTLY? WHY ARE THEY NECESSARY?

Depending on the situation, an amplifier can be simple or complicated. The purposes of a sound amplifier is to intensify audio signals for the human ear, for example, for reproducing an audio CD, a microphone system, a guitar, etc. But they also have other applications, such as amplification of high-frequency signals for radio and TV stations.

Generally speaking, there are three types of amplifiers. Most of us are familiar with the **MIXING amplifier**, a difficult word for something that can handle anything. It will help you define the wattage you need. Just connect up the speakers and the source, and hey presto!

The name **PRE-amplifier**, however, says exactly what the amplifier does: it defines the way you want things BEFORE you amplify them. In other words it is the nervous system of the sound system. This unit determines the source you want to select, the volume, etc.

The **POWER amplifier** defines the capacity of the system, that is, its brute force. It's just like a car, which has its steering system (pre-amplifier) and engine (power amplifier). Neither can exist without the other.

Finally, there is the **matrix**, which functions like an adult dispatcher with the fire services. He coordinates everything: who is sent where and in what numbers? Who receives priority? Etc. You can almost feel what's coming next. A system using a matrix requires a little more forethought. The matrix always maintains an overview.

MIXING AMPLIFIERS

ALL INCLUSIVE!

We might as well have called them plug & play-amps. Connecting speakers, providing power and go for it. Most of them can take multiple sources and microphones. They are suitable for simple arrangements up to more complex combinations.

MX-60M

TABLETOP MODEL MIXER AMPLIFIER

This compact mixer amplifier is fitted with an integrated tuner and Bluetooth-module, it can be used for numerous commercial and residential purposes. The MX-60M is fitted with an individual volume control per input channel and is protected against short circuit and thermal overload.

Pleasant background music and the right ambiance in the shop, the MX-60M makes it happen every day.

MX-60

TABLETOP MODEL MIXER AMPLIFIER

Compact mixer amplifier, for use in numerous commercial and industrial applications. Provided with individual volume control for each input channel and protection against short-circuits and thermal overload.

Waiting is always a nuisance, but this MX60 makes it somewhat less burdensome. Because the healing sounds make waiting easier.

MX-120M

19" MIXING AMPLIFIER

Compact and universally deployable mixing amplifier that pumps out 120 Watts. The MX-120M has integrated FM with Bluetooth and a treble/bass tone control on board. It has individual input gain control (3 channels) and is protected against short-circuit and thermal overload.

The MX-120M is suitable for a large number of purposes. It ensures a perfectly appropriate atmosphere in this shoe shop. But also the local sports centre, the Commune Council Chamber and the school ... are its playground.

MX-2406M

6-ZONE 19" SELECTIVE MIXING AMPLIFIER

This versatile mixing amplifier with integrated music source offers 240W output power. You can instantly create six zones operating independently (a single source simultaneously). They each have their own volume level and selective PA option.

The music in the refrigeration aisles is louder than in the checkout area of this supermarket. What's more, you can put out calls for staff per zone.

MX-5006M

6-ZONE 19" SELECTIVE MIXING AMPLIFIER

Just choose between radio or a wireless BT-connection and in no time, you will create 6 zones that operate independently (one source at a time). They each have their own volume level and selective PA option.

Does one zone require more power than the other? That is a piece of cake for the MX-5006M. An appeal to the person responsible for the department is also easily done.

output capacity 100V	500W
output capacity RMS 80	500W
frequency range	50Hz - 16kHz

MATRIX

DIVIDE AND RULE!

More complex situations demand more flexible solutions.

This is precisely where the use of matrices comes in so handy. Upon your request, it will send any signal to the zone of your preference. Long live musical freedom!

MAT-8000

8-ZONE MATRIX

High-performance 8-time matrix guarantees the ultimate in flexibility. The name says it all: you can distribute different sources to a maximum of 8 zones simultaneously. You can also add sources locally, control the volume, etc....

A polyvalent sports complex requires polyvalent solutions. A microphone at the side line that can also function as a local source? Check! Flexibility is the watchword of the MAT-8000 matrix.

PRE-AMPLIFIERS

VERIFY BEFORE YOU AMPLIFY

Keep control of the power and determine personally what will be amplified where. Pre-amplifiers allow you to select and control different sources and to control the volume. Naturally, they are used in combination with the necessary power amplifiers.

PM-2S01

2 ZONES STEREO PRE-AMPLIFIER

With the PM-2S01, you now have a 10-channel preamplifier whose signals can be transmitted to two zones. Each channel has its own individual volume control and is ideal for connecting up a microphone or other sources. You have a choice between XLR connections (9), MIC/LINE (5), RCA (4) and REC OUT (1).

This company restaurant looks and feels pleasant, but different from the offices. The PM-2S01 ensures a controllable solution!

POWER AMPLIFIER

PRONOUNCED, BUT CONTROLLED

As efficient as they are indispensable for anyone working on a project people expect more from. From small to large, the keyword is power.

PRH-4240

4-CHANNEL 100V POWER AMPLIFIER

Professional 4-channel 100V power amplifier in an extremely compact 19" 1U housing. This class D-amplification with high efficiency guarantees high power, minor distortion and hardly any heat development. Good for a maximum of 240W of power across four zones.

Compact in size and with a low power consumption. Provide speaker power for up to 4 different zones in all kinds of projects.

output capacity 100V	4 x 240W
frequency range	20Hz - 20kHz
zones	4
input	balanced phoenix connector
output	speaker phoenix connector
LED level indicator	yes
safety	over-voltage and power surges
cooling	automatic ventilator / thermal sensor
power supply	220V AC
dimensions (h x w x d)	44 x 484 x 420mm - 19" / 1U
weight	8,8kg

output capacity 100V	4 x 350W
frequency range	20Hz - 20kHz
zones	4
input	balanced phoenix connector
output	speaker phoenix connector
LED level indicator	yes
safety	over-voltage and power surges
cooling	automatic ventilator / thermal sensor
power supply	220V AC
dimensions (h x w x d)	44 x 484 x 420mm - 19" / 1U
weight	9,2kg

PRH-4350

4-CHANNEL 100V POWER AMPLIFIER

Professional 4-channel 100V power amplifier in an extremely compact 19" 1U housing. This class D-amplification with high efficiency guarantees high power, minor distortion and hardly any heat development. Good for a maximum of 350W of power across four zones.

Compact in size and with a low power consumption. Provide speaker power for up to 4 different zones in all kinds of projects.

PRL-1502

2-CHANNEL POWER AMPLIFIER

The PRL-1502 is a professional 2-channel amplifier in a highly compact 19-inch 1U housing. The class D amplification with high efficiency guarantees high power and low distortion coupled with very low heat generation.

All production and assembly take place in Europe and all major components are European. With the new PRL amplifiers, ArtSound wants to contribute to the environment and society through local employment and cleaner and faster transport.

The PRL series represents sustainable and audible quality.

output capacity	2 x 150W (4Ω) / 2 x 75W (8Ω)
	300W (bridge)
frequency range	10Hz – 30kHz
channels	2
input	2 x combo XLR/jack
output	2 x 2-pin euroblock
	2 x speakon
signal indicator	yes
clip/protection indicator	yes
safety	overvoltage, short-circuit, thermal
power supply	100-240V AC @ 50-60Hz
extra	bridge mode
dimensions (h x w x d)	44,5 x 483 x 275mm – 19"/1U
weight	4,2kg

MADE IN EUROPE

output capacity	4 x 150W (4Ω) / 2 x 75W (8 Ω) 2 x 300W (bridge)
frequency range	10Hz – 30kHz
channels	4
input	4 x combo XLR/jack
output	4 x 2-pin euroblock 2 x speakon
signal indicator	yes
clip/protection indicator	yes
safety	overvoltage, short-circuit, thermal
power supply	100-240V AC @ 50-60Hz
extra	bridge mode
dimensions (h x w x d)	44,5 x 483 x 275mm – 19"/1U
weight	4,2kg

PRL-1504

4-CHANNEL POWER AMPLIFIER

The PRL-1504 is a professional 4-channel amplifier in a highly compact 19-inch 1U housing. The class D amplification with high efficiency guarantees high power and low distortion coupled with very low heat generation.

All production and assembly take place in Europe and all major components are European. With the new PRL amplifiers, ArtSound wants to contribute to the environment and society through local employment and cleaner and faster transport.

The PRL series represents sustainable and audible quality.

PRL-3002

2-CHANNEL POWER AMPLIFIER

The PRL-3002 is a professional 2-channel amplifier in a highly compact 19-inch 1U housing. The class D amplification with high efficiency guarantees high power and low distortion coupled with very low heat generation.

All production and assembly take place in Europe and all major components are European. With the new PRL amplifiers, ArtSound wants to contribute to the environment and society through local employment and cleaner and faster transport.

The PRL series represents sustainable and audible quality.

output capacity	2 x 300W (8Ω)
frequency range	10Hz – 30kHz
channels	2
input	2 x combo XLR/jack
output	2 x 2-pin euroblock 2 x speakon
signal indicator	yes
clip/protection indicator	yes
safety	overvoltage, short-circuit, thermal
power supply	100-240V AC @ 50-60Hz
dimensions (h x w x d)	44,5 x 483 x 275mm – 19"/1U
weight	4,2kg

**MADE IN
EUROPE**

output power	50 Watt / channel @ 8 Ω
bridged power output	150 watts / channel @ 4 Ω
frequency range	20 Hz - 20 kHz (+/- 3dB)
channels	8 channel, 4 zones
input	stereo RCA (bus input 1 & 2 + locale), trigger in
output	stereo RCA (bus output 1 & 2), trigger out
safety	overvoltage, short-circuit, thermal
power supply	AC 220 - 240 V / AC 100 - 120 V 60 Hz
dim. (h x w x d)	88 x 430 x 335mm
weight	9,5kg

AMP850

MULTI-CHANNEL AMPLIFIER

The AMP850 is a multi-channel amplifier that allows you to drive up to eight (mono) or four (stereo) speaker zones. Each stereo loudspeaker zone is allocated the generous power of 2 x 50 watts. The AMP850 serves as the powerhouse of an existing multiroom system or you can use it in combination with our Smart Zone 4 or Smart Stream. In different rooms, you can control the sound with local volume controls (from our N-VOLST range).

Each zone has enough power. Extra warm background music lives here.

SOURCES

CD players, a radio, a wireless connection ... they are the choices you make when you want to listen to music. Each source needs an amplifier and speaker. Nowadays, there are different forms: analogue (radio) and digital (playlist) sources. Before you know it, you can end up with a mishmash of different units. We integrate everything! With the 19" system it's possible to save on space and do away with a confusion of cables. What's more, you have a unit that satisfies all modern requirements.

SRC-2221

This SRC-2221 is a pure triathlete: it boasts a digital tuner, CD player and SD/USB reader in a single housing; three disciplines effortlessly controlled by the hand-held transmitter.

Once you sit down here, you won't want to get up again. With the functional hand-held transmitter there's no longer any need to. What's more, at the flick of a switch you can change playlist and channel.

USB/SD adapter
for playing MP3

frequency range	20Hz - 20kHz
direct output	2 x RCA
sources	AM/FM tuner - 99 presets / SD/USB input (MP3) / CD
power supply	240V AC
power consumption	200W
dimensions (b x h x d)	44 x 484 x 215mm - 1RS
weight	3,7kg
extra	remote control / USB/SD adapter / FM/AM antenna

MIXING DESKS

HAPPILY NAVIGATING BETWEEN SOURCE AND ZONES

Mixing desks are jacks-of-all-trades. They form the connection between all conceivable sources (input) and all possible zones (output). One can compare their smart-degree with that of the control tower at the airport, that is how smartly-connecting they are!

MIKS6.4

MIXING TABLE

This MIKS6.4 is not just another mixing table. It is a multi-functional mixing desk. After all its applications are diverse. The MIKS6.4 suits perfectly in a standard DJ-environment, like an environment with multiple zones. It has six channels and offers 11 line-ins and 3 mic inputs. Using the handy selection switch you can control the desired zone(s). And you are the one to determine the power of the signal.

With the proper amplifier, the MIKS6.4 is excellently suitable for use in the hospitality industry, in schools, cultural centres, sports centres, etc.

frequency range	20Hz-20KHz
zones	4
zone outputs	3-pin XLR / RCA
S/N ratio	88dB
THD	0.03% (line) 0.15% (mic)
tone control	3-band equalizer
MIC input	5mV RMS, 2 x 6.3 mm mono jack, 1 x XLR
line input	200mV RMS, 11 x RCA
headphone	8Ω, 1 x 6,3mm stereo jack
power supply	230V AC
power consumption	13W
dimensions (h x w x d)	105 x 482 x 177mm - [4U]
weight	4kg

THE CONTROL SYSTEM IS WHAT PROVIDES COMFORT

It must be user-friendly and most of all, solution-oriented. You'll find built-in modules for local inputs for sports complexes, meeting rooms, etc., but also a simple volume control device you could keep in your desk, for example. A limited offering for a maximum area of application.

WP-8000B

Fancy tuning into a different station in the coffee area? Or would you rather we all listen to the same audio stream together? The WP-8000B (in combination with the MAT-8000) allows you to choose your personal source, the preferred volume and turn your own zone into a local source (for example, connecting up a microphone or smart-phone). The LED panel has a discreet but direct way of telling you exactly what you are doing.

*A little introspection ...
The WP-8000B in our own
ArtSound offices. Modern
enjoyment guaranteed.*

TECHNICAL SPECIFICATIONS

communication speed	4800bps
communication distance	≤ 1km
input MIC	10mv
input AUX	335mv
signal/noise ratio	MIC ≥ 65dB BGM ≥ 75dB
total harmonic distortion	≤ 1% 1kHz
power supply	24V DC (via matrix till 50m)
dimensions (h x w x d)	86 x 135 x 33mm
dim. in-wall housing (h x w x d)	75 x 135 x 45mm
weight	153g
extra	metal in-wall housing

UTP cabling

metal in-wall housing
included

WP-8000C

The WP-8000C is the WP-8000B smaller version. It gives you feedback on the source you selected and lets you regulate the volume to your heart's desire.

The blue LED provides you information about the status. Nicely concealed under the aluminium cover.

SVC6.2T

The SVC6.2T, connected to a 100V amplifier, lets you create 6 different zones controllable in volume (100W per channel). The practical dials on the front panel allow you to adjust the volume for each zone or switch it off completely. Each volume control is equipped with a 24V priority relay. The styling and finishing allow the SVC6.2T to blend in perfectly with your 19" professional rack.

description	100V volume control for 6 zones
max. power	100W max. per channel
priority channel	24V DC
dim. (h x w x d)	88 x 483 x 86mm - 2u (19")
weight	1,86kg
colour	black

Want the same music in the warehouse, the office, as well as in the entrance hall? Using the SVC6.2T, you stay in control and give each zone its own volume.

MICROPHONES MICROPHONES

A telephone is for intimate communication, a microphone is for communicating with multiple people at the same time. Quickly call a colleague, ask for support in a factory department, quickly communicating that an order is ready for pick-up... the microphone will easily do the trick!

There is a microphone type for any sort of call. Depending on the situation, one model or the other will fit best. We, at ArtSound, offer a wide range. We have them wired and wireless, we have mics for the fitness coach (with a sturdy headset), but also for the reverent (with a discrete mic stand) ... We developed some of the microphones for specific use in combination with our own ArtSound-products, while others are more suitable for universal use.

MIC-8000A

This microphone (in combination with the MAT-8000) allows you to put a call out in any zone you wish. Each of the buttons on your 'private' base has its own function. The attention signal helps catch everyone's notice (gong switch 2 to 4 tones). Pull the goose-neck towards you, adjust the volume and address every bystander. The LED light indicates that everything is okay. The MIC-8000A can be linked to the MAT-8000 with a cat 5 cable.

A call just intended for the board meeting? Not a problem with the MIC-8000A: discreet, but direct.

TECHNICAL SPECIFICATIONS

type	condenser microphone
polar pattern	unidirectional
frequency response	50 - 18000Hz, +/- 2dB
impedance	600Ω
sensitivity	- 75dB
volume control	chime + microphone
selective call	8 zones
power supply	24V DC
dimensions (h x w x d)	58 x 180 x 145mm
weight	2.5kg
extra	power adapter
combination	MAT-8000

MIC-621A

The MIC-621A is our allround mic. You can connect it up to different types of amplifier. What's more, it's extremely easy to operate and also includes an emergency battery. Just switch it on, press the button, say what you have to say and finish. Simple and straightforward.

A debate in this conference room requires an easy-to-use microphone. Even non-specialists can use this one.

TECHNICAL SPECIFICATIONS

type	condenser microphone
polar pattern	cardioid
frequency response	50 - 12000Hz
impedance	600Ω
sensitivity	- 63dB
volume control	-
power supply	9V DC / 12V AC
dimensions (h x w x d)	45 x 125 x 150mm
weight	1.3kg
extra	XLR cable (6m) back-up battery
combination	MX-120M / MX-2406M / MX-5006M MAT-8000 / PM-2S01

MIC-511C

The MIC-511C is a table microphone with lots of sensitivity. Cardioid directivity elements ensure that sound reproduction is perfect. This microphone is powered by a 48V phantom power.

The MIC-511C filters out background noise. As a result, you can hear everything that's being announced.

TECHNICAL SPECIFICATIONS

type	condenser microphone
polar pattern	cardioid
frequency response	60 - 15000Hz

power supply	24V DC - 500 mA
dimensions (h x w x d)	54 x 175 x 147mm
weight	1kg
extra	DC power supply
combination	MX-2406M / MX-5006M

MIC-216

The MIC-216 paging console (compatible with the MX-2406M/ MX-5006M) allows you to put a call out in any zone you wish. Each of the buttons on your 'private' base has its own function. The attention signal helps catch everyone's notice. Pull the goose-neck towards you, adjust the volume and address every bystander. The LED light indicates that everything is okay.

Photo - Fancycrave on Unsplash

Want to catch the attention of the member of staff in aisle 5? The MIC-216 does what's necessary.

HF-TWIN

Receiver for wireless microphone HF-MIC. The receiver receives your voice from the microphone (to be purchased separately), which in turn is linked to the amplifier. Can be paired with 2 x HF-MIC, 2 x HF-BPACK or 1 x HF-MIC and 1 x HF-BPACK.

*Mobile, so no cables.
The HF-TWIN package gives you
all the possibilities.*

*Comes in this handy transport
case.*

TECHNICAL SPECIFICATIONS

type	wireless microphone receiver
oscillator	PLL synthesized 16 channel selectable
modulation mode	FM
frequency band	823 - 832Mhz
frequency range	40Hz to 17kHz
frequency response	80Hz to 15kHz - ± 3dB
signal-to-noise ratio	90dB
audio output	balanced A & B, mixed (6,3 mm jack)
power	DC 12V
power consumption	<300mA
dimensions (h x w x d)	45 x 205 x 180 mm
weight	147gr

HF-MIC

Nowadays everything is wireless! Microphones too. The HF-MIC is an allround microphone, which can transmit the signal to 16 different channels thanks to the built-in transmitter.

Whether it's for a presentation in a school, a sports centre or a professional speech, the HF-MIC will do the business for you.

TECHNICAL SPECIFICATIONS

type	hand-held wireless microphone
polar pattern	unidirectional dynamic
oscillator	PLL synthesized 16 channel selectable
frequency band	823 - 832Mhz
frequency range	40Hz to 17kHz
power	DC 3V (2 x 1,5V batteries AA size)
dimensions (Ø x h)	55 x 250mm
weight	260gr
combination	HF-TWIN

HF-BPACK

Each wireless microphone sends a signal. A tie clip microphone for example, however, has no transmitter on board. The HP-BPACK provides a stable signal that is picked up by the receiver. It also also features a convenient belt clip and operates on batteries. Also available HF-HEADSET or HF-HEADSET FITNESS.

Thanks to its compact dimensions, it can be clipped or concealed on any belt or simply dropped into a pocket.

wireless microphone included

HF-HEADSET optional

HF-HEADSET FITNESS optional

TECHNICAL SPECIFICATIONS

type	Belt-pack and lavalier microphone
oscillator	PLL synthesized
	16 channel selectable
frequency band	823 - 832 Mhz

dimensions (Ø x h)	60 x 160mm
weight	700gr
combination	

SIGNAL CONVERTERS

In the various set-ups, it is sometimes necessary to convert a signal to another structure. This makes it possible to allow two devices to flawlessly communicate with each other, or to convert a low-ohm speaker to a 100V version.

T20

With the T20, you can transform any low-ohm loudspeaker to a PA or 100V loudspeaker. The T20 is suitable for any dry environment, and allows you to choose your own power up to a maximum of 20W.

power	2,5 / 5 / 10 / 20W
sensitivity	8Ω
dim. (h x w)	45 x 75mm

ET20

The ET 20 can transform your classic waterproof speaker to a 100V version. The housing is waterproof and frost-proof.

power	2,5 / 5 / 10 / 15 / 20W
sensitivity	8Ω
dim. (h x w x d)	72 x 152 x 72mm

INSPIRATION INSPIRATION

This guide will provide you with a summary of our products. Each and everyone of them is the result of decades of experience and of our limitless passion. But of course loudspeakers only acquire their true meaning if they are allowed to play their part: create an atmosphere, bring peace, ask for attention, make you happy, vibrate, impress... Whatever you expect from your speakers, with this item we want to inspire you, with 8 elaborated, quite common situations. Get inspired and stimulated.

“For the bakery, the butcher, the grocer. Create an atmosphere at your shop.”

Local retail

Perfect reception and reproduction of all radio stations, thanks to the RI60 internet radio, in combination with the compact MX-60M mixing amplifier. Do you want more than just internet radio? Then go for Smart Stream. The discrete FL501T speakers are the built-in option, or go for the subtle UNI30 as surface-mounted speakers.

“A complete, user-friendly solution that will satisfy everyone. A pleasant atmosphere for the visitors upon arrival and afterwards, when visiting the showroom. Productive background music for employees and management. The favourite radio station for the warehouse staff. Homey music in the kitchen during lunch. And the right atmosphere straight from the parking area.”

Commercial building

Perfect reception of all radio stations thanks to the SMART ZONE 4 streaming pre-amplifier. The MAT-8000 8-zone matrix takes care of the distribution and control of the music sources across the areas. Via the selective announcement microphone MIC-8000A you can transmit messages to all areas. In the showroom and kitchen, the subtle UNI40T onwall speakers are installed. In the offices, the super-flat FL501T inwall speakers. In the warehouse, the ASP60 360° pendant speaker is installed at a height of 6 - 7 metres. At the parking area, you will have the beautiful KURV design speakers.
