

UX1000

**Hybrid Noise Cancellation ×
Clear, Natural Sound**

Designed for everyday listening
across all music genres

UX1000

Clear, fatigue-free sound

By optimizing the acoustic performance of the driver and applying EQ only to the subtle high-frequency artifacts from Bluetooth®, the UX1000 delivers deep, resonant bass and crisp, defined highs—without harshness. Enjoy a natural, lifelike sense of presence across any genre.

Hybrid Noise Cancellation without sacrificing sound quality

Equipped with Hybrid Noise Cancellation using both feedforward and feedback processing. Our proprietary algorithm minimizes sonic impact, allowing you to enjoy music in a quiet space—at home, in transit, or on the go.

Switch to Ambient Mode to hear surrounding sounds when needed, such as train announcements or conversations.

How Hybrid Noise Cancellation works

1. Internal and external microphones analyse surrounding noise
2. The headphones generate an inverse sound wave
3. External noise is effectively cancelled

Color variations: ‘BLACK’ and ‘GREIGE’

We offer two colors: the classic “BLACK” and the versatile ‘GREIGE’, ideal for everyday use. Suitable for any occasion.

Comfortable to hold with a non-slip ‘Matte Finish’

The surface features a ‘Matte Finish’ coating resistant to hydrolysis. It resists oil and fingerprints, and dirt is less noticeable.

Up to 70 hours of music playback

Long battery life allows up to 70 hours of music playback (with ANC OFF) on a single charge. Enjoy extended use without worrying about recharging.

Multi-point connection support

Supports multi-point connection, allowing simultaneous Bluetooth® pairing with up to two devices. Connect two devices at once and operate them seamlessly without switching connections. For example, pair your PC and smartphone to listen to music on your PC while taking calls on your phone.

Foldable compact storage

The headband folds for compact storage, making it convenient to carry.

Specifications

Communication Protocol: Bluetooth® 5.4

Frequency Response: 20Hz–20KHz

Supported Codecs: SBC, AAC

Supported Profiles: A2DP, AVRCP, HFP, GAVDP

Continuous Music Playback Time: Up to 40 hours with ANC on, up to 70 hours with ANC off

Charging Time: Approximately 2 hours

Battery Capacity: 500mAh

Weight: 250g
